These publications are authored by the Center for Advanced Communications research personnel.

Books

[1] M. Amin, Editor, Compressive Sensing for Urban Radar, CRC Press, 2014.

[2] F. Ahmad, Editor, Compressive Sensing, Proceedings of SPIE, vol. 8365, SPIE, Bellingham, WA, 2012.

[3] M. Amin, Editor, Through the Wall Radar Imaging, CRC Press, 2011.

Book Chapters

[1] M. G. Amin, "Sparsity-aware moving target indication," in M. G. Amin, Editor, Compressive Sensing for Urban Radar, CRC Press 2014.

[2] F. Ahmad, "Wall clutter mitigations for compressive imaging of building interiors," in M. G. Amin, Editor, Compressive Sensing for Urban Radars, CRC Press, 2014.

[3] L. Stankovic, S. Stankovic, I. Orovic, and Y. D. Zhang, "Time-frequency analysis of micro-Doppler signals based on compressive sensing," in M. G. Amin, Editor, Compressive Sensing for Urban Radars, CRC Press, 2014.

[4] M. G. Amin and Y. Zhang, "DOA Estimation of Nonstationary Signals," in R. Chellappa and S. Theodoridis (eds), Academic Press' Library in Signal Processing, Academic Press, 2013.

[5] M. G. Amin and F. Ahmad, "Through-the-Wall Radar Imaging: Theory and Applications," in R. Chellappa and S. Theodoridis (eds), Academic Press' Library in Signal Processing, Academic Press, 2013.
