Supplemental Questions

Instructors have the option of submitting individualized quantitative and/or qualitative supplemental questions to their online CATS. The online system provides the opportunity to create up to **15 rating scale questions** *(5-point rating scale)*, up to **5 yes/no questions** and/or up to **5 open-ended questions**.

We ask that you contact OPIR no later than **5 weeks** prior to the end date of a course if the course runs the full length of the semester, and no later than **3 weeks** prior to the end date of a "shorter" course. All supplemental questions submitted to OPIR will appear at the end of the online CATS for each course specified.

Please contact OPIR by emailing **CATS-QUESTIONS@villanova.edu**.
