Material Safety Data Sheet
(Similar to OSHA Form 174)

Section 1: Manufacturer/Distributor Information
Product Name: Nature's Solution Bio-Enzymatic Deodorizer
Supplier's Name: National Chemical Laboratories of PA, Inc.
Supplier's Address: 401 N. 10th Street
Philadelphia, PA 19123

Product #: 1600
Chemical Name: N/A Proprietary Blend
Chemical Family: Enzyme
Formulate N/A Blended Product
Emergency Phone #: 1 (215) 922-1200

HMS Hazard Code
Health 1
Flammability N.A.
Reactivity N.A.
Other N.A.

Section 2: Hazardous Ingredients and Five Major Components

Section 3: Physical Data
B.P.: 100°
Specific Gravity: 1.0
pH: 8.0-10.0
Vapor Pressure: No To Water
Vapor Density: No To Water
Solubility In Water: 99%
Appearance: Milky
Odor: Floral Type

Section 4: Fire and Explosion Data
Flash Point (F): None To Boiling
Flammable Limits: N.A.
Unusual Fire & Explosion Hazards: None known

Section 5: Health Hazard Data
General: Limited data is available on this specific product. Skin contact may cause eye irritation. Ingestion: May cause irritation to the mouth, pharynx, and stomach. Exposure to air can cause irritation to the eye. Inhaling: Dust may cause irritation to the mucous membranes of the respiratory tract. Inhaled material may cause eye irritation. Organisms used are not pathogenic but can cause inflammation when in contact with sensitive tissues. Sensitivity to these materials is similar to many commonly-used antibiotics. Skin Contact: Slight redness on exposed skin that has a history of dermal irritation reaction. Dermatitis and allergic contact dermatitis may occur with prolonged contact. Skin Absorption: Systemically toxic concentrations will probably not be absorbed through the skin in man. Inhalation: None known. Other effects of overexposure: None known

First Aid Procedures: Skin: Remove contaminated clothing and footwear. Do not wash the skin with soap and water. Wash clothing and footwear before reuse. Eyes: Immediately flush with plenty of water for at least 15 minutes and have eyes examined and treated by medical personnel. Inhalation: Drink water if able to swallow. Induce vomiting only if advised by physician or poison control center. Call poison control center.

Section 6: Reactivity Data
Stability: Stable under normal conditions
Incompatibility (materials to avoid): Strong acids and alkalis
Conditions may inactivate biological cultures
Hazardous Decomposition Products: None
Hazardous Polymerization: Will not occur

Section 7: Spill or Leak Procedures
Steps to be taken if material is released or spilled: Where possible, flush down drain to waste treatment sewer; otherwise on small spills, use chemical absorbent and sweep up. For large spills, contain and collect. Waste disposal method: Disposal of this product or its residues must be in accordance with all local, state, and Federal requirements.

Section 8: Special Protection Information
Respiratory Protection: None required for recommended use
Ventilation: Normal room ventilation
Protective Clothing: None required
Eye Protection: Safety glasses and face shields
Other Protective Equipment: As determined by or recommended by federal, state, or local regulations

The information contained in this MSDS was obtained from reputable sources. However, the data is provided without any warranty, expressed or implied, regarding its correctness or accuracy. Since the conditions of handling, storage and disposal of this product are beyond the control of this company, it is not responsible for loss, injury and expense arising out of the product's improper use. No warranty, expressed or implied, regarding the product described in this MSDS shall be created or inferred by any statement in this MSDS. Various government agencies may have specific regulations regarding the transportation, handling, storage, use or disposal of this product which may not be covered by this MSDS. The user is responsible for full compliance.
