The Mission & Goals and Integrity Working Group has completed all of the interviews on both the group and individual levels. Number of interviews completed @ 40.

Steve Sheridan created a SharePoint document to which individuals from the working group are able to upload the results of their particular interviews into one master document from which the final report will be edited and prepared.

Individual working group members are in the final stages of uploading the results of the interviews into a working file divided into 14 questions. (6 for Mission & Goals Standards, 8 for Integrity Standards)

Next steps: Editing of raw material uploaded under each question to begin preparation of written report. Working group, consisting of 19 members is divided into two smaller working groups in order to work on the separate standards of: Mission & Goals and Integrity.
