Leadership, Governance and Administration  
Middle States Self Study  
Team Update  

January 2010

The Leadership, Governance and Administration Study team met in Fall 2009 to divide into four sub-teams, which were assigned specific questions to research.

Each sub-team was assigned a leader who was responsible for assigning specific questions to the sub-team members, checking on progress and collating the information to send to Task Force team chair, Debra Arvanites. All research was completed by the end of November 2009.

Those who provided information relative to the team members' questions included, among others: Dottie Malloy, Louise Fitzpatrick, Jack Johannes, Jim Danko, Gary Gabriele, Father Donohue, Dan Gelwicks (President of SGA), Bob Morrow, Meghan Mogan, and Bob Styer.

Debra Arvanites collated all the team members' research in a semi-final draft document, which was submitted to the Steering Committee chairs on January 18, 2010. Once the Leadership, Governance and Administration Study team receives direction for the next steps in producing the final document, we will begin work on finalizing the presentation of our data to the Steering Committee.
