FRONT COVER:

The Philadelphia Museum of Art and the Water Works
by Brother Jack Stagliano, OSA

One of the most recognizable buildings in Philadelphia, this view of the museum, with the old Water Works in the foreground, is seen by visitors driving into the city on the Schuylkill Expressway. Covering ten acres of ground the museum contains over 200 galleries.

This painting by Brother Jack Stagliano, OSA, associate professor of studio art at Villanova University and artist with the Augustinian Press is the twelfth summer catalog cover contributed by Brother Jack.

CAMPUS SCENE

This lithograph represents Villanova c. 1887 and portrays the central location of the College Building (now Alumni Hall) surrounded on the East by the extensive farm barns; on the South by the enlarged monastery (formerly Rudolph Mansion) and the newly constructed Saint Thomas Church; on the West by the old Augustinian community cemetery, the “gymnasium” chapel, and the playing fields; on the North by the “Main Line” of the old Pennsylvania Railroad.

Vol. CXXXVV No.1

An Equal Opportunity/Affirmative Action Employer

Villanova University is an affirmative action institution complying with the requirements of Executive Order 11246 as Amended by 11375; Title IX; and the Rehabilitation Act of 1973, Section 503 and 504.
WELCOME TO VILLANOVA IN THE SUMMER

The summer program at Villanova is designed to assist you to fill your academic needs in a productive yet pleasant environment. There are graduate and undergraduate courses in the liberal arts, sciences, engineering, education, business and nursing. With two four-week day sessions, an eight-week evening session, internships, summer abroad programs, independent studies and weekend workshops, you are sure to find a course that fits your requirements.

Courses in the summer are open to visiting students from other colleges as well as Villanova’s current graduate and undergraduate students. Members of the local community and adult students who wish to return to college, take a course for personal enrichment, expand their professional knowledge or enhance career options are encouraged to enroll in summer sessions. If you wish to reside on campus, room and board are available in our residence halls.

Together with our excellent faculty, summer students form a community of scholars dedicated to learning within an environment of academic excellence. You are welcome to join this community for the summer session and enjoy the Villanova experience.

For more information on summer sessions and assistance with registration, please visit the summer sessions office in room 107 Vasey Hall or call (610) 519-4300 or go to www.parttime.villanova.edu.

— SPECIAL FOR SUMMER 2008 —

Distance Learning. Would you like to earn Villanova credits but cannot stay at Villanova this summer? For summer 2008, Villanova summer sessions will offer forty-six undergraduate courses and nine graduate courses which may be completed away from the campus while still earning Villanova credits toward your degree. These courses will use computers, Blackboard/Vista, the Internet, CDrom, e-mail or a combination of these formats. Courses include: Introductory Statistics, Principles of Financial Accounting, Philosophy and Film, Principles of Marketing and Principles of Nutrition. See the catalog section on Distance Learning on page 75 for a complete listing.

Villanova Summer Business Institute. Invest in your future... The Villanova Summer Business Insitute (SBI) is a 9 week, intensive 16 cr. hr. business program for non-business college students and recent graduates with liberal arts, science or engineering degrees that leads to a Certificate in Business. Graduates of the SBI will meet Villanova student requirements for a minor in business. Please see page 85 for details on this program.

GENERAL INFORMATION
VILLANOVA UNIVERSITY SUMMER SESSIONS

Villanova University was founded by the Augustinian Order in 1842. The University traces its origins to old St. Augustine’s Church in Philadelphia, which the Augustinians founded in 1796, and to its parish, St. Augustine’s Academy, established in 1811.

In 1842 the Augustinians purchased “Belle Air,” the country estate of John Rudolph, a Revolutionary War officer and Philadelphia merchant. There they established the “Augustinian College of Villanova,” under the patronage of St. Thomas of Villanova, a sixteenth-century Augustinian educator and Bishop of Valencia, Spain. Eventually the college came to be known as Villanova and gave its name to the town which grew up around it.

Villanova is committed to Catholic traditions and the educational heritage of the Augustinian Order. The University provides a Christian intellectual and moral environment, but maintains a strong respect for the beliefs of its diverse community of faculty members, students and staff.

Villanova comprises four undergraduate colleges: Arts and Sciences, the Villanova School of Business, Engineering and Nursing, and the Division of Part-Time Studies. The University is also comprised of Graduate Studies and the Law School.

Villanova’s Summer Sessions program was inaugurated in 1918 to assist students in accelerating their academic programs. Since that time, Summer Sessions enrollment has increased from 70 to over 4,000 students. The undergraduate and graduate sessions attract hundreds of students from other colleges and universities, and part-time as well as full-time Villanova students.

By taking the maximum number of courses allowed in the three Summer Sessions, an undergraduate student can complete the equivalent of a regular semester’s work. Course requirements are the same as those stipulated in the University Catalog. Most of the courses are taught by full-time University faculty.

LOCATION

Villanova University is in Villanova, Pennsylvania, on Lancaster Pike (U.S. Route 30). Six miles west of City Line, Philadelphia, the University is half an hour away from center city Philadelphia. The Villanova campus of over 240 acres is in an attractive residential area. The University buildings are large stone structures with modern equipment.

Public transportation to and from campus includes two trains, the Paoli Local and the Norristown High-Speed Line of the Southeastern Pennsylvania Transportation Authority. SEPTA also operates bus route 105 through the campus.

Villanova is a short drive from the Norristown exit of the Pennsylvania Turnpike via Rt. 476 south to the Villanova exit, then east on Rt. 30.

ADMISSION

Admission into Villanova is separate from the registration process and should be accomplished prior to registration.

Students interested in graduate or undergraduate academic year programs should contact the appropriate admissions office for information, programs of study, and requirements for admission and graduation. Students seeking degree status must meet admission standards and supply the necessary credentials.

VISITING STUDENTS

Non-matriculating students who attend the Summer Sessions only (including students from other colleges and universities) may enroll in undergraduate classes without applying formally to Villanova.

Anyone interested in enrolling in graduate classes must submit an application form and a letter from their graduate dean or their academic credentials for admission to Graduate Studies. For the MBA Program, prospective visiting students should contact the Coordinator, Clare Haux, Graduate Business Programs, for information on gaining permission to MBA courses as a visiting student.
Enrollment in a Summer Session does not imply acceptance as a degree candidate in any division of Villanova University.

ADVISEMENT

Students may register for summer courses by completing the registration form attached to this Catalog and by observing the following guidelines.

1) **Current Villanova Students.** Undergraduates, including Part-Time Studies students, both degree and nondegree, must have their registration forms signed by their department advisor/chair, or in the case of those who have not declared a major, by their college dean. Graduate students must have their registration forms signed by the department chair, their department advisor, or their program director.

2) **New Villanova Students.** Undergraduate students who have been admitted to the University for the 2008 fall semester must have their registration forms signed by their academic deans. Graduate students who have been admitted must have their registration forms signed by their department chair, their department advisor, or their program director. Graduate students who have been admitted for the Fall 2008 semester but wish to begin their studies in the Summer 2008 session must request to have their admit term adjusted in the Dean's office.

3) **Students From Other Universities and Colleges** who wish to transfer Villanova summer credits to their schools should make appropriate arrangements with officials at their schools. For graduate students, a letter from their dean to the Graduate Studies Office of Villanova University is required. Certain graduate courses have prerequisites, and visiting students must be approved by the department chair and the Graduate Studies Office before admittance. Undergraduates must have senior status, a 3.0 cumulative average, and permission of the instructor, course chair, advisor, course dean, and graduate dean in order to enroll in graduate courses.

4) **Secondary-School Students** must, in addition to completing the registration form, submit a letter of recommendation to the Director of Summer Sessions, from their principal or guidance counselor. These registrations will be reviewed by the department chair prior to approval.

**Students dismissed from Villanova University may not attend Summer Sessions.**

REGISTRATION

SEE CALENDAR FOR APPROPRIATE SESSION. Registration is conducted by one of the following methods:

1. **ADVANCE REGISTRATION**
   - The completed registration form, with appropriate signatures, is mailed or delivered to:

ADVANCE REGISTRATION/BILLING SCHEDULE

Payments are due no later than the first day of class. This requirement applies to all students, including those who register too late to receive a bill. Students may also register and pay at walk-in registration.

To complete the registration process, advance registered students must pay their accounts by the first day of class or they are subject to a late registration and late payment fee.

After the registration process is completed, the student should report to the classroom at the times indicated on line.

LATE PAYMENT FEE

A Late Payment fee is charged to any account which is not paid in full by the official first day of class.

LATE REGISTRATION

Registrations will not be accepted after May 30 for the First Session, June 5 for the Evening Session, and July 1 for the Second Session.

REGISTRATION FORMS

There is a registration form on the last page of this Catalog. MBA students should contact the Office of Graduate Business Programs for registration information.

Registration forms may be obtained at the offices of the school deans; Graduate Studies, Kennedy Hall, 2nd floor (610-519-7090); the Registrar's Office, 202 Tolentine Hall (610-519-4032); and the Summer Sessions Office, 107 Vasey Hall (610-519-4300). Registration forms may also be requested by telephone or by mail. Registration forms are also available on line at www.parttime.villanova.edu.

IDENTIFICATION CARDS

Photo Identification cards for students attending Villanova for the first time, will be taken during walk-in registration at the Wildcard Office in Dougherty Hall on the dates and times of registration or 8:00 a.m.-5:00 p.m. (Monday through Friday). You can also apply for your Photo Identification card on line at www.villanova.edu/photo.

Federal Stafford, Federal GRAD PLUS, Federal PLUS and Alternative Loans are available to eligible students who are enrolled at least half-time in summer courses at Villanova. Federal Pell Grants and summer state grants may also be available. In order to be considered as an eligible applicant the student must be accepted into a degree seeking program at the University, be enrolled at least half-time and making satisfactory academic progress. Students receiving degrees from other colleges and universities who are taking summer courses at Villanova and wish to obtain financial assistance should contact the financial aid office at their "home" institution.

Villanova University students interested in applying for summer term loans (Federal Stafford, Federal GRAD PLUS, Federal PLUS or Alternative Loans) must contact the Office of Financial Assistance for instructions on applying for aid for this period.

Questions concerning eligibility and the application process should be directed to the Office of Financial Assistance.

REFUNDS

The dropping of any course for which a student is registered is official only when the academic dean has signed the proper form for Villanova students. The Director of Summer Sessions signs the form for visiting students.

Students who have executed the required withdrawal forms (see WITHDRAWAL, p.14), will be charged tuition at the following rates.

MBA Session (May 19-July 17)
Withdrawal within 24 hours of first scheduled class day ............... NO CHARGE
Withdrawal on or before May 26 ......................... student will be charged 25%
Withdrawal after May 26 ................................. student will be charged 100%

ACADEMIC INFORMATION

ADD/DROP

Current Villanova students wishing to add a course, to change a course or section for another course or section, or to drop a course, may do so in Novasis using the summer registration access code issued by your advisor. Visiting students (those not enrolled in Villanova during the regular academic year) must obtain approval from the Director of Summer Sessions.

Adding or changing courses or sections is not permitted after May 30 for the First Session; June 5 for the Evening Session; and July 1 for the Second Session.

WITHDRAWAL

Any student may withdraw from a course without academic penalty after obtaining the approval of the appropriate dean according to the following schedule: June 11 for the MBA Session; May 30 to June 16, inclusive, for Session I; June 5 to July 10, inclusive, for the Evening Session, and July 1 to July 17, inclusive, for Session II.

After these periods, students may request withdrawal from any course up to and including the last class day of each session. A Villanova student who wishes to withdraw from courses must give the appropriate dean a written statement of cause for withdrawal and the written recommendation of the instructor and the instructor’s chairperson. For all students in Graduate Arts and Sciences, a request for a withdrawal after the deadline requires documentation of a non-academic reason for the withdrawal. Withdrawal will be contingent upon the approval of the student’s dean. MBA students must submit a written request for withdrawal to the Assistant Dean.

Visiting students (those not enrolled in the University during the regular academic year), must obtain approval from the Director of Summer Sessions.

All withdrawals must be made in person or in writing. No withdrawals will be accepted over the telephone.

When authorizing a withdrawal after the add/drop period, a dean may assign a grade of W or WX to the student.

The grade of Y is given for any undergraduate course from which a student withdraws without approval.

Withdrawal without academic penalty does not imply a waiver of financial obligations. Please refer to the refund schedule.

WITHDRAWAL FROM THE UNIVERSITY

A Villanova student requests withdrawal from the University by a letter to the appropriate dean. A student who withdraws from a program cannot resume studies until formal readmission to the University.

Withdrawal from the University should not be confused with changes in registration status.

AUDIT

Auditors pay the same fees and tuition as matriculating students. Students wishing to audit a course must fill out an “AUDIT” form in the Registrar’s Office, Tolentine Hall, Room 202. Evening students may complete the “AUDIT” form in the Part-Time Studies Office, Vasey Hall, Room 107. The auditing student is not responsible for course examinations and assignments, but must attend all class and laboratory sessions. The MBA Program does not offer an “audit” grade as an option for their students. Courses taken as “audit” will not count towards any degree requirements in the Graduate Studies program.

A student who has registered for credit and wishes to change his registration to audit must do so in the first half of the course. Students are not permitted to change their registration status from credit to audit after June 16 for Session I, July 10 for the Evening Session, and July 17 for Session II.

Visiting students who plan to have summer courses transferred to another school are advised not to audit a course unless approval is granted from that school.
SATISFACTORY/UNSATISFACTORY OPTION

A student may elect to take some of the undergraduate courses offered on a Satisfactory/Unsatisfactory basis after securing approval at the appropriate dean’s office. Visiting students who plan to have summer courses transferred to another school are advised not to elect the Satisfactory/Unsatisfactory option unless approval is granted from that school.

The grade (S) is equal to the grade C or better; the grade (U) is equivalent to a failure. Neither (S) nor (U) affects the student’s Quality Point average.

Students who elect the Satisfactory/Unsatisfactory option must fill out a Satisfactory/Unsatisfactory form in the Registrar’s Office, Tolentine Hall, Room 202. Evening students may complete the Satisfactory/Unsatisfactory form in the Office of Part-Time Studies, Vasey Hall, Room 107.

A student must elect the Satisfactory/Unsatisfactory option by the end of the add/drop period. This is May 30 for the First Session, June 5 for the Evening Session, and July 1 for the Second Session. A letter grade is not recorded for a course taken on a “Satisfactory/Unsatisfactory” basis.

CLASS ATTENDANCE

The intensive nature of summer study does not generally allow for absences. It is the responsibility of the student to ascertain the attendance policy of each Summer Session instructor. Ignorance, misunderstanding or misinformation of an instructor’s attendance policy is not a reason for reconsideration of a grade.

COURSE NUMBERING

Courses numbered 0001 to 6999 are undergraduate courses. Courses numbered 7000 to 7999 are graduate courses to which undergraduate students are admitted with the permission of the department chairman and the Dean of the Graduate School. Courses numbered 8000 to 9999 are limited to graduate students.

CREDIT

Courses offered in the Summer Sessions carry full academic credit.

COURSE CANCELLATIONS

All summer courses are offered contingent on sufficient enrollment. The University reserves the right to cancel all courses for which there is insufficient enrollment.

CLASS LOAD

Two courses constitute a maximum full-time program in each regular Summer Session. Fifteen credit hours constitute a maximum full-time program in a combination of day and evening courses.

FINAL EXAMINATIONS

Final examinations are obligatory in most courses. They are held on the last scheduled class day of each session, in the same classroom used during the regular Summer Session classes.

GRADE REPORT

Grades are available through NOVASIS at the end of each session. Visiting students must make formal written transcript requests through the Registrar’s Office to report grades to other institutions. Any inaccuracies in grades reported must be reported to the Registrar within two weeks. The official grade report is part of the student’s cumulative record.

GRADING SYSTEM

The scale of marks is as follows:

UNDERGRADUATE

A is the highest academic grade possible; an honor grade which is not automatically given to a student who ranks highest in the course, but is reserved for accomplishment that is truly distinctive and demonstrably
outstanding. It represents a superior mastery of course material and is a grade that demands a very high degree of understanding as well as originality or creativity as appropriate to the nature of the course. Student works independently with unusual effectiveness and often takes initiative in seeking new knowledge outside the formal confines of the course.

A–
B+
B

is a grade that denotes achievement considerably above acceptable standards. Good mastery of course material is evident and student performance demonstrates a high degree of originality, creativity, or both. Student works well independently and often demonstrates initiative. Analysis, synthesis, and critical expression, oral or written, are considerably above average.

B–
C+
C

indicates a satisfactory degree of attainment and is the acceptable standard for graduation from college. It is the average grade that may be expected of a student of average ability who gives to the work a reasonable amount of time and effort. This grade implies familiarity with the content of the course and acceptable mastery of course material. Student displays some evidence of originality, creativity, or both. Student works independently at an acceptable level and completes all requirements in the course.

C–
D+
D

denotes a limited understanding of the subject matter, meeting only the minimum requirements for passing the course. It signifies work which in quality and/or quantity falls below the average acceptable standard for the course. Performance is deficient in analysis, synthesis, and critical expression; little evidence of originality, creativity, or both.

D–

F

indicates inadequate or unsatisfactory attainment; serious deficiency in understanding of course material and failure to complete requirements of the course.

IN
S
SP
WX
W
U
AU
Y
NG (or blank)

GRADUATE

Grades are recorded at the end of each semester or Summer Session. The student receives an official report by mail. Any inaccuracy must be reported by mail to the Registrar immediately. The work of the student is graded according to the following scale:

A Outstanding
F Failure
A– WX Approved Withdrawal
B+ N Incomplete
B AU Audit
B–
C+ U Unsatisfactory. Assigned in Satisfactory/Unsatisfactory courses.
C Fair

C– grade is not used by Graduate Studies Program or MBA Program.

The MBA Program does not offer an “audit” grade as an option for their students.
Courses taken as “audit” will not count towards any degree requirements in the Graduate Studies Program.

INCOMPLETE GRADES

An incomplete grade (N) is given when a student is ill or is justifiably delayed in completing course work. Grades to replace N grades must be in the Registrar’s Office within 30 days of the session’s end. Unconverted N’s and NG’s become NF’s. Students must complete work to replace the N grade and a Grade Change must be received by the Registrar’s Office within 30 days of the session’s end. Without the approval of the student’s instructor, department chairperson and dean, no grade higher than C may replace an N. The end of session is the last scheduled class day.

TRANSCRIPTS

Transcripts may be obtained by applying at the Office of the Registrar, Room 202, Tolentine Hall, either in person or by writing, through NOVASIS, or faxed to 610-519-4033. Telephone requests cannot be accepted.

Official transcripts bear the seal of the university and the Registrar’s signature. Those given to students bear a stamp indicating that the transcript has been issued to the student.

Students from other universities who wish to have their grades forwarded must also submit a written request to the Registrar’s Office.

Students may receive transcripts or certification of credits only when their financial accounts are completely paid.

STUDENTS’ RIGHTS TO THEIR RECORDS

Family Educational Rights and Privacy Act of 1974, Public Law 93-380, as amended, provides that Villanova University students have: (1) the right to inspect their educational records that are maintained by Villanova University; (2) the right to a hearing to challenge the contents of those records when they allege the records contain misleading or inaccurate information; (3) the right to give their written consent prior to the release of their records to any person, agency, or organization other than University officials and certain authorized federal and state authorities. Information about specific procedures is available upon request from the Registrar’s Office.

Information concerning the following items about individual students is public and may be released by the Office of the Registrar without the student’s consent: full name, major field of study, dates of attendance, class year, degrees and awards received, most recent educational institution attended.

Students who do not wish such information to be released should inform the Registrar’s Office in writing at the time the information is originally sought from students.

POLICY AND REGULATIONS

Adherence to University regulations, set forth in the University Catalog and Student Handbook (The Blue Book), is required for successful completion of a program of studies at Villanova. The University reserves the right, under appropriate procedures, to require the withdrawal of any student whose conduct is unsatisfactory.

VETERANS

Veterans who are eligible to receive educational benefits must give their course information to the University Registrar after they register for Summer Sessions. The Registrar will submit certification of enrollment to the Veterans Administration. A veteran from another college or university must present a letter from the school, stating that the school will accept courses taken at Villanova. The Registrar will forward the letter and an enrollment certification to the Veterans Administration. Veterans attending college for the first time must complete the Veterans Administration form “Application for a Program of Education or Training” and submit the complete application to the Registrar. The Registrar will forward the formal course information and enrollment certification to the Veterans Administration.
NOVASIS

All new students who have registered for courses are issued a NOVASIS PIN by the Office of the Registrar. The NOVASIS PIN allows students access to their account in the Villanova University Student Information System. NOVASIS is located on the web at http://novasis.villanova.edu. NOVASIS contains important information including class schedules, grades and transcripts. To access NOVASIS you can enter your Villanova email sign-in ID (for example: jstudent01, asmith), or your Villanova ID, which is an 8 character ID (for example: 18700000, or 00002222). You can also use your previous NOVASIS ID and 6 digit NOVASIS PIN.
BOOKSTORE/UNIVERSITY SHOP

Director: Frank Henninger (610-519-4163)

The University Shop, located on the first floor of Kennedy Hall, is a complete university store, owned and operated by the University as a special service for its students, faculty and staff. ADVISOR TO STUDENTS WITH DISABILITIES

Advisor: Stephen McWilliams, M.A. (610-519-4095)

The Office for Human Services provides support and assistance for students with physical disabilities and to ensure Villanova University’s compliance with the Americans with Disabilities Act. The office provides reasonable accommodations for students with special needs. To receive assistance, students must provide documentation about their disability to our office. We ask students to register with us at the beginning of each semester. Our office is located in the Connelly Center on the 2nd floor. Additional information can be found on the Villanova website.

LIBRARY

University Librarian: Mr. Joseph Lucia, M.L.S. (610-519-4290)

The Falvey Memorial Library is Villanova’s gateway to print and electronic information resources and services. Its more than 750,000 volumes, 5,500 current serial subscriptions, approximately 200 electronic indexes, full-text electronic journals and extensive microfilm and audiovisual collections support the informational and research needs of the Villanova community. The Falvey Library homepage on the World Wide Web provides access to many services and resources as well as describing policies and procedures of the library. The Falvey homepage is accessible at: http://www.vill.edu/library.

A friendly, knowledgeable staff provides reference, interlibrary loan, instructional media, circulation, reserve materials, cataloging and acquisition services. Reference librarians answer specific questions, suggest appropriate sources, assist in the formulation of search strategies, and offer instruction in the use of electronic resources. Interlibrary Loan makes available the resources of libraries throughout the country. Instructional Media Services offers viewing and listening stations for films, CDs, tapes, as well as transparency, lettering and production services.

A current University ID is needed to borrow library materials. Anyone entering the library without a Villanova ID is required to sign in and to present a drivers license or other form of ID. Possessions may be inspected upon leaving the library. Entering implies consent that this inspection may occur.
The library is a smoke-free building. Food and drink policies are posted throughout the building. Theft and mutilation of materials is a violation of the Code of Student Conduct and subjects one to sanctions.

Inquire at the Information Desk for more specific information about library use, library services and the collection.

**MAIL**

Every resident desiring to receive mail at the University must have a mail box. Boxes may be obtained at the Student Post Office on the lower level of Kennedy Hall. There is no charge for this service. Students must remove all mail from their mail boxes prior to departing at the end of Summer Sessions. Please complete change of address form (upon receipt of V.U. Box) to ensure proper forwarding of mail after completion of Summer Sessions.

Please be aware that to ensure all summer mail is received by the correct addressee, the Villanova Box Number must be present on the mail piece.

**PARKING/EMERGENCIES/CRIME REPORTING**

Students attending Summer Sessions (unless already in possession of a permit expiring on August 31st) will be required to purchase a permit to park on the Main Lot or Spring Mill Lot. Permits will expire at the end of the appropriate session (Summer Session I, II, III or MBA). The Parking Office will issue permits for both Summer Sessions if appropriate.

To register for parking visit our website at:
http://publicsafety.villanova.edu/parking.html

Permits are available for pick-up in Farrell Hall - Monday through Friday - 8:00 a.m. to 4:00 p.m. Evening students may contact the Parking Office at 610-519-6990 to request to have their parking permit left with the Public Safety Dispatcher who is available 24/7.

All crimes, accidents, or medical emergencies should be immediately reported to the Department of Public Safety. To contact Public Safety in the event of an emergency dial 9-4444 when using University phones. Note: 610-519-4444 can be used to call our emergency phone number when using non-University phones. All non-emergency calls should be directed to 610-519-6979. For further information concerning services provided by the Department of Public Safety, please visit our web site at http://publicsafety.villanova.edu.

11180 AAH-3020-020 (6/27-7/28) MTWThF 2:30-4:20 p.m. Dr. Diamond-Reed F105
This course will explore the themes, symbolism and inspiration of ancient Egyptian art beginning with the formation of the Egyptian state until the arrival of Alexander the Great in 332 BC. A group of specialized craftsmen emerged near the end of the 4th millennium BC to satisfy the needs of an early influential class from Upper Egypt. These specialists fashioned an elite tradition on a vast scale at an early age. The Egyptians maintained this unique tradition for thousands of years with little change. One exception to this is Akhenaten and the “Amarna Revolution” to which special attention will be paid. Additionally, this course will explore the development of the tomb, city planning, and monumental architecture. It is
through the analysis of this material assemblage that Egyptologists can reconstruct history. This study of the art and architecture will be accompanied by a survey of ancient Egyptian history. This course will include several quizzes, a midterm and a final exam.

**Independent Research**  
3 cr.  
11183 AAH-5515-030 (5/28-7/28) TBA

Mr. DeWarf M341  
A study of the life cycles of the stars from their birth in dark, dense interstellar dust clouds to their deaths in nature’s most violent cataclysms with a focus on stars and humanity, the formation of the chemical elements, the effects of nearby supernovae, the future of the Sun and the ultimate fate of Earth, and the question of planetary systems around other stars. Corequisite for Arts students: AST 1073.

**Stellar Lab**  
1 cr.  
11189 AST-1073-010 (5/28-6/25) MWTh 1:30-3:30 p.m.  
Mr. DeWarf M241  
Laboratory focuses on stellar and galactic problems. Corequisite: AST 1072, 2122 or 2120.

**Planets**  
3 cr.  
11190 AST-1074-020 (6/27-7/28) MTWThF 10:30 a.m.-12:20 p.m.  
Staff M341  
The surfaces and atmospheres of other worlds and how they compare to Earth with a focus on the physical processes which mold their landscapes and both generate and modify their gaseous atmospheres. The geology and meteorology of planets and their moons; the role of destructive collisions versus accretion and re-compaction. The effects of collisions with asteroids and comets, their role in mass extinctions, and in the possible formation of atmospheres and oceans; the search for planets and life in our solar system and beyond. Corequisite for Arts students: AST 1075.

**Planets Lab**  
1 cr.  
11191 AST-1075-020 (6/27-7/28) MWTh 1:30-3:30 p.m.  
Staff M241  
A continuation of Astronomy Lab I that focuses on planetary and solar system problems. Corequisite: AST 1074 or AST 2121.

Dr. Licata B2074
Introduces cost accounting systems and how such systems can be used internally by managers to support planning, control, and decision making with particular emphasis on Activity-Based Costing (ABC) and Activity-Based Management (ABM) principles. Cases and group projects generally required. Prerequisite: MBA 8101 or ACC 8100.

Telecommunications Management
11129 MBA-8553-001 (5/19-7/17) TTh 6:00-9:00 p.m.
Dr. Chung B3001
The main focus of the course will be on the use of data communication technologies to support the effective and efficient management of information in an organization. Topics will include; the different competing data telecommunications architectures and protocols, an overview of different network topologies and technologies such as LAN, WAN, intranets, and Value-added networks. Must be enrolled on one of the following levels: Graduate Nursing or Law School Graduate Business.

E-Business
11130 MBA-8555-001 (5/19-7/17) MW 6:00-9:00 p.m.
Dr. Luo B3010
11131 MBA-8555-002 (5/19-7/17) TTh 6:00-9:00 p.m.
Dr. Sloane B3010
Provides an awareness and understanding of the relevant issues, advantages and disadvantages, and specific techniques involved in using electronic commerce to assist in the production, coordination, marketing, and delivery of goods and services. Explores how electronic commerce can support the development, manufacturing, and marketing of goods and services, and how the different facets of electronic commerce can be used to support business practices.

11130 MBA-8555-001 is 50% Distance Learning.
DECISION AND INFORMATION TECHNOLOGIES

Statistical Analysis 3 cr.
11431 MBA-8502-001 (5/19-7/17)  TTh 6:00-9:00 p.m.  Staff B3070
Descriptive and inferential statistics as applied to management problem solving and decision-making including descriptive statistics, probability theory, sampling, estimation, hypothesis testing, simple and multiple correlation and regression analysis, and time series. Prerequisite: Calculus.

Operations and Supply Chain Management 3 cr.
11437 MBA-8503-001 (5/19-7/17)  MW 6:00-9:00 p.m.  Dr. Chaudhry B1046
Provides an understanding of the complex process underlying the development and manufacture of product as well as the creation and delivery of services. Examines the concepts of operations management, operations technology, and the responsibilities of operation managers in the management of production systems, including problems and techniques of systems design, operation, and control. Prerequisite: MBA 8502 or ECO 8120.

ECONOMICS

Economic Analysis 3 cr.

Corporate Finance 3 cr.
11432 MBA-8401-001 (5/19-7/17)  TTh 6:00-9:00 p.m.  Mr. Suprenuk B2073
Analyzes basic business problems and tools of financial decision making used by business firms. Topics include present value techniques, capital budgeting and cost of capital asset management, introduction to the theory of portfolio management, and capital asset pricing. Prerequisites: (MBA 8101 or ACC 8100) and (MBA 8502 or MBA 8701 or ECO 8120).

Applied Corporate Finance 3 cr.
11433 MBA-8410-001 (5/19-7/17)  TTh 6:00-9:00 p.m.  Dr. Cochran B1064
Focuses on the application of theories and concepts of financial management to practical business problems and situations by means of case analysis and problem-solving techniques. Topics include valuation, risk and return relationships, working capital management, capital budgeting analysis, risk management, capital structure, and dividend policy. Prerequisite: MBA 8401 or FIN 8159).

Equity Markets 3 cr.
11436 MBA-8433-001 (5/19-7/17)  MW 6:00-9:00 p.m.  Mr. Huting B2001
This course presents an analysis of equity markets and an introduction to security analysis. Topics include asset allocation models, passive vs. active management strategies, fundamental analysis and technical analysis. A term project is required. Prerequisite: MBA 8410 or FIN 8220.

Financial Markets and Institutions 3 cr.
11434 MBA-8437-001 (5/19-7/17)  TTh 6:00-9:00 p.m.  Mr. Mirman B2010
An introduction to structure and operation of domestic and international financial markets and institutions. Topics include an analysis of the flow of funds from savers to borrowers, risk-return tradeoff, market efficiency, asset-pricing models, theories of interest rates, and term structure of interest rates. A research paper is generally required. Prerequisite: MBA 8410.
Independent Study: Finance 3 cr.
11435 MBA-8490-001 (5/19-7/17) TBA
Dr. Shaffer
Students may not register for this course on the WEB; written permission of Graduate Director required.

**MANAGEMENT**

Leadership and Team Building 3 cr.
11438 MBA-8510-001 (5/19-7/17) MW 6:00-9:00 p.m.
Dr. Arvanites B1010

CIVIL AND ENVIRONMENTAL ENGINEERING

Dr. Chadderton, Chair
Office: 139 Tolentine
Phone: 610-519-4960

Mechanics of Solids 3 cr.
11225 CEE-2103-030 (5/28-7/28) MW 5:50-8:00 p.m.  Staff CEER205
Stress resultants in bodies from tension, compression, shear, flexure, torsion and temperature stress and strain transformations; combined stresses; load deformation relationships; Euler buckling. Prerequisite: CEE 2104 or ME 2100.

Mechanics: Statics and Dynamics 4 cr.
11226 CEE-2104-030 (5/27-7/24) TTh 5:50-8:30 p.m.  Dr. Gross T309
Force systems; equilibrium of particles and rigid bodies; analysis of simple structures; internal forces; friction; properties of areas and volumes; kinematic and kinetic analysis of particles. Prerequisites: MAT 1505 and PHY 2400.

Lake, Stream and Wetland Ecology 3 cr.
11227 CEE-7010-030 (6/2-7/28) M 6:00-9:30 p.m.  Dr. Browne/Dr. Traver CEER312
Basic ecological principles. Food chains, trophic structure, biogeochemical cycles, and ecosystem dynamics. Water quality problems including nutrient enrichment, toxicity, and nonpoint source pollution. Watershed evaluation and management concepts, and TMDL.

11228 CEE-7010-D35 (6/2-7/28)  Dr. Browne/Dr. Traver
This is a Distance Learning section of this course. Please see page 75 for more information.

Introduction to Hydraulic Engineering and Hydrology 3 cr.
11229 CEE-7111-030 (5/28-7/23) W 6:00-9:30 p.m.  Staff CEER312
Extension of fluid mechanics. Basic principles, mathematical concepts and solution methods, experimental data, and engineering judgment. Pressurized-flow systems, free surface flow, stream channel behavior and control, hydrologic data interpretation, hydrograph analysis and synthesis. Prerequisites: Undergraduate Fluid Mechanics (or its equivalent) and proficiency in computers.
Wood and Masonry Structures  
11234 CEE-7401-030 (6/2-7/28)  M 6:00-9:30 p.m.  
Dr. Gross TBA  
Design and behavior of wood and masonry structures; introduction to design codes; material properties; structural members; connections; structural systems.

Introduction to Environmental Engineering Processes  
11231 CEE-7502-030 (5/27-7/22)  T 6:00-9:30 p.m.  
Staff CEER312  
Fundamental physical, chemical, and biological principles and processes for water and wastewater treatment; chemical kinetics, reactor engineering, sedimentation, disinfection, filtration, and fixed film biological treatment. Prerequisites: Undergraduate fluid mechanics (or its equivalent) and two semesters of undergraduate chemistry.

Principles of Sustainable Development for Industry and Society  
11236 CEE-7829-030 (5/29-7/24)  Th 6:00-9:30 p.m.  
Mr. Radzinski CEER205  
Investigation of problems with the present system of development and production, and evaluation of required steps to achieve sustainability will be conducted. Sustainability approaches such as green engineering and design, renewable energy systems, sustainable transportation, green building and low impact development techniques will be explored.

Environmental Geology  
11233 CEE-8311-030 (5/27-7/22)  T 6:00-9:30 p.m.  
Dr. Glynn CEER205  
The geological environment and the works of man; the geology of Pennsylvania and vicinity; interaction between geology and engineering work, the resulting problems and their solutions.

River Mechanics and Engineering  
11237 CEE-8512-030 (5/29-7/24)  Th 6:00-9:30 p.m.  
Mr. Bellini/Mr. Szalay CEER312  
Includes fluvial geomorphology, streambank stabilization, dam removal, in-stream habitat enhancement, sediment transport analysis, scour at bridges and culverts, design of scour countermeasures, design of naturally and structurally stable channel systems and design of energy dissipaters.

Special Topics Engineering  
11239 CEE-8601-030 (5/28-7/28)  TBA  
Dr. Chadderton  
Individual supervised study. Topic and scope must be submitted in writing to topic advisor for approval prior to registration. Requirements must be completed by the end of its semester of registration.

Civil & Environmental Engineering Research/Investigation  
11240 CEE-9030-030 (5/28-7/28)  TBA  
Dr. Chadderton  
Topic and scope must be submitted in writing to topic advisor for approval prior to registration. The results of the course findings may provide the basis for the thesis option. The final written document at the completion of the semester will be submitted for approval as a thesis proposal or a term paper for grade. The thesis proposal must be agreed upon by both the
student and the topic advisor and approved by the chairperson. Requirements must be completed by the end of its semester of registration and prior to CEE 9031 registration. Prerequisite: Consent of chairperson.

**Thesis I**  
11241 CEE-9031-030 (5/28-7/28) TBA  
Dr. Chadderton  
Prerequisite: CEE 9030.

**Thesis II**  
11242 CEE-9032-030 (5/28-7/28) TBA  
Dr. Chadderton  
Prerequisite: CEE 9031.

**Thesis Continuation**  
11243 CEE-9080-030 (5/28-7/28) TBA  
Dr. Chadderton  
Restricted to graduate students.

**Public Relations**
3 cr.
11328 COM-3460-010 (5/28-6/25) MTWThF 10:30 a.m.-12:20 p.m. Ms. Flanagan F-EMedia
Provides a foundation for students interested in the field of public relations. It chronicles the development of the profession from its earliest beginnings to its role in modern management. Also attempts to bridge the gap that exists between theory and practice. It achieves this by emphasizing the fundamental management perspective of the profession and the persuasive intent of message construction while highlighting the four essential skills required for success in the industry—research, writing, planning and problem solving. Writing and Rhetoric Concentration. Writing Enriched. Prerequisite: COM 2200 or COM 2280 or COM 2300 or COM 2440.

**Public Relations Writing**
3 cr.
11329 COM-3462-010 (5/28-6/25) MTWThF 1:30-3:20 p.m. Ms. Flanagan F-EMedia
Offers students the foundation for producing a variety of written public relations materials. Structure includes an overview of the journalistic style of writing along with extensive practice in writing fundamentals. Following the work on enhancing writing skills, students will develop a variety of pieces for their portfolios. Final class products include print news releases, position papers, feature stories, media advisories, media kit, and other related assignments. Course is strongly recommended for students interested in public relations, advertising, marketing, and organizational communication. Writing and Rhetoric Concentration. Writing Intensive. Prerequisite: COM 3460 or permission of Chairperson.

Directed Study
11330 COM-5100-030 (5/28-7/28) TBA
Dr. Crable
Supervised project culminating in term paper. Restricted to Communication majors/minors. Permission of Chairperson required.

11340 CSC-1300-035 (5/28-7/28) Ms. Metzger  
This is a Distance Learning section of this course. Please see page 75 for more information.

**Internship in Computing**  
3 cr.  
11341 CSC-2993-030 (5/28-7/28) TBA  
Dr. Beck  
Internship in computer science open to second semester sophomores and above. Most likely, intern will participate in computer system development, maintenance, or evaluation in an environment which supports sound software engineering techniques.

**Independent Study**  
3 cr.  
11342 CSC-5993-030 (5/28-7/28) TBA  
Staff  
11343 CSC-5993-031 (5/28-7/28) TBA  
Staff  
Reading, research and/or projects in a selected area of computer science under the direction of a member of the staff. May be repeated for credit.

**GRADUATE COURSES**

Dr. Cassel, Director  
Office: 161 Mendel  
Phone: 610-519-7310

The Graduate Program in Computer Science is designed as a terminal degree program leading to the M.S. degree, but students desiring professional retraining or continuing education
are welcome to take courses. Some courses assume partial or total fulfillment of the admission requirements to the Program: calculus (at Villanova, MAT 1320, 1325), statistics (MAT 2310), algorithms and data structures (CSC 7000, or CSC 1051, 1052), computer organization (CSC 7100 or CSC 1200), and discrete structures (CSC 1300).

Most students taking summer graduate courses in computer sciences are pursuing the Master’s Degree at Villanova University. Students from other departments and institutions are welcome to take courses; however, they must have their registrations approved by the program director. This is necessary in order to monitor adherence to course prerequisites and to ensure priority to those students who need courses as part of their degree program at Villanova University.

Design and Analysis of Algorithms 3 cr.
11344 CSC-8301-030 (5/28-7/28) Th 6:00-9:30 p.m. Dr. Hagelgans M256
Fundamental strategies for algorithm design; mathematical and empirical techniques for analysis of nonrecursive and recursive algorithms, with applications such as sorting, searching, string processing and graphs; NP-complete problems and approximation algorithms.

Database Systems and File Management 3 cr.
11345 CSC-8490-030 (5/28-7/28) W 6:00-9:30 p.m. Dr. Goelman M256
Architecture of a database system; conceptual and implementation models; query languages; design theory; integrity, security, and concurrency; discussion of some commercial systems. Prerequisite: Graduate Arts and Sciences level CSC 8301 Minimum Grade of C and Graduate Arts and Sciences level CSC 8400 Minimum Grade of C.

Computer Networks 3 cr.
11346 CSC-8560-030 (5/28-7/28) T 6:00-9:30 p.m. Dr. Schragger M258
Computer networks as an application development platform; services required by and provided to distributed application electronic mail systems enhancement; access to remote file systems; integration of remote resources such as components of the World Wide Web into applications; abstract syntax notation; data compression and encryption; session control and synchronization; transport protocols; network addressing and routing; LAN and MAN medium access control; bridging. Treatment of Open Systems Interconnection and Internet protocols and services. Prerequisites: Graduate Arts and Sciences level CSC 8301 Minimum Grade of C and Graduate Arts and Sciences level CSC 8400 Minimum Grade of C.

System Programming in UNIX and C 3 cr.
11347 CSC-8700-030 (5/28-7/28) M 6:00-9:30 p.m. Mr. Nadi M154
The UNIX operating system: command interpreters, shell programming, process structure, file system, utilities like grep, sed, awk, and perl. C programming: file processing, libraries, program environment, system calls. Prerequisites: Graduate Arts and Sciences level CSC 8301 Minimum Grade of C and Graduate Arts and Sciences level CSC 8400 Minimum Grade of C. This course is 50% Distance Learning.

Graduate Computing Practicum 1 cr.
11348 CSC-8990-030 (5/28-7/28) TBA Dr. Cassel
Work experience in computing, CSC graduate program approval required for a specific work opportunity. Prerequisite: Completion of graduate CSC core: CSC 8301, 8310, 8400, 8410, and 8510, Minimum grade of C.

Graduate Computing Practicum Continuation 0 cr.
11715 CSC-8991-030 (5/28-7/28) TBA Dr. Cassel

Guided Study 3 cr.
11349 CSC-9000-030 (5/28-7/28) TBA Dr. Cassel
Faculty-directed study by small number of students on topic of mutual interest. Topics vary with faculty & student goals. May replicate rarely offered course or research topics not covered in existing courses. Requires permission of instructor & program director. Open to graduate students in computer science or software engineering.
Special Topic: Safeware – Computers and System Safety 3 cr.
11350 CSC-9010-030 (5/28-7/28) Th 6:00-9:30 p.m. Dr. Fleischman MG86
Advanced elective study of topics of current interest and importance in the computer field. This may be retaken for a different topic. Please contact the Graduate Computing Sciences department for additional information.

Special Topic: Database Administration 3 cr.
11351 CSC-9010-031 (5/28-7/28) T 6:00-9:30 p.m. Dr. Dullea MG86
Advanced elective study of topics of current interest and importance in the computer field. This may be retaken for a different topic. Please contact the Graduate Computing Sciences department for additional information.

Independent Study 3 cr.
11352 CSC-9020-030 (5/28-7/28) TBA Dr. Joyce
11353 CSC-9020-031 (5/28-7/28) TBA Dr. Joyce
Individual research project in an advanced area of computer science, conducted under the guidance of a faculty member.

Independent Study Continuation 0 cr.
11354 CSC-9021-030 (5/28-7/28) TBA Dr. Joyce
Continuation beyond the first semester for students who have registered for the independent study (CSC 9020).

Thesis Direction 3 cr.
11355 CSC-9030-030 (5/28-7/28) TBA Dr. Joyce
Expanded Independent study in which the student makes an original contribution to the computer science field.

Thesis Continuation 0 cr.
11356 CSC-9080-030 (5/28-7/28) TBA Dr. Joyce

CRIMINAL JUSTICE

Dr. Arvanites, Director
Office: 287 St. Augustine
Phone: 610-519-4741

Introduction to Criminal Justice 3 cr.
11699 CRJ-1000-015 (5/28-6/25) Dr. Arvanites
This is a Distance Learning section of this course. Please see page 75 for more information.

Internship 3 cr.
11713 CRJ-6003-030 (5/28-7/28) TBA Dr. Arvanites
Supervised work experience in a criminal justice agency. Must be enrolled in the Criminal Justice Major.

Internship 6 cr.
11714 CRJ-6006-030 (5/28-7/28) TBA Dr. Arvanites
Supervised work experience in a criminal justice agency. Must be enrolled in the Criminal Justice Major.

GRADUATE COURSES

Thesis Direction 3 cr.
11208 CRJ-8200-030 (5/28-7/28) TBA Dr. Hannon

Thesis Direction 3 cr.
11281 CRJ-8201-030 (5/28-7/28) TBA Dr. Hannon
Individual Research I 3 cr.  
11282 CRJ-8300-030 (5/28-7/28) TBA  
Dr. Hannon  
An individual research project under the direction of a Villanova faculty member. Permission of the Director and written consent of the faculty member is required.

Independent Research II 3 cr.  
11283 CRJ-8301-030 (5/28-7/28) TBA  
Dr. Hannon  
An individual research project under the direction of a Villanova faculty member. Permission of the Director and written consent of the faculty member required.

Criminal Justice Internship I 3 cr.  
11284 CRJ-8400-030 (5/28-7/28) TBA  
Dr. Hannon  
Administrative experience in a criminal justice agency or organization.

Criminal Justice Internship II 3 cr.  
11285 CRJ-8401-030 (5/28-7/28) TBA  
Dr. Hannon  
Administrative experience in a criminal justice agency or organization.

ECONOMICS AND STATISTICS  
Dr. Mao, Chair  
Office: 2015 Bartley  
Phone: 610-519-4370

Introduction to Microeconomics 3 cr.  
11357 ECO-1001-010 (5/28-6/25) MTWThF 8:30-10:20 a.m.  
Staff B2045  
The price system; demand and supply analysis; the production process; analysis of market structures.

11358 ECO-1001-025 (6/27-7/28) Staff  
This is a Distance Learning section of this course. Please see page 75 for more information.

Introduction to Macroeconomics 3 cr.  
11360 ECO-1002-020 (6/27-7/28) MTWThF 10:30 a.m.-12:20 p.m.  
Staff B3041  
11361 ECO-1002-030 (5/28-7/28) MW 6:00-8:00 p.m.  
Staff B3041  
The economic system and its fundamental principles. The economic functions of government, monetary and fiscal policy, and international trade.

This is a Distance Learning section of this course. Please see page 75 for more information.

Internship Elective 3 cr.  
11362 ECO-1903-030 (5/28-7/28) TBA  
Dr. Mao  
Permission of Chairperson required.

Internship 3 cr.  
11363 ECO-2993-030 (5/28-7/28) TBA  
Dr. Mao  
Permission of Chairperson required.

Internship 6 cr.  
11364 ECO-2996-030 (5/28-7/28) TBA  
Dr. Mao  
Permission of Chairperson required.

International Economics 3 cr.  
11365 ECO-3109-010 (5/28-6/25) MTWThF 10:30 a.m.-12:20 p.m.  
Staff B035  
Comparative advantage; gains from foreign trade; Heckscher-Ohlin doctrine; technology and product cycles; tariff theory and policy; other protection measures; economic integration; foreign exchange rates; fixed and flexible rates; balance of payments; multinational corporations. Prerequisites: (ECO 1001 or HON 1080) and (ECO 1002 or HON 1081).
### EDUCATION AND HUMAN SERVICES

Office: 302A St. Augustine  
Phone: 610-519-4620

#### UNDERGRADUATE COURSES

**EDUCATION**

**Social Foundations of Education I**  
3 cr.  
11369 EDU-2201-010 (5/28-6/25) MTWTh 10:30 a.m.-12:20 p.m.  
Dr. Ramirez B024  
Major movements in the history of education to 1600 with emphasis on their social and philosophical context; historical development of educational aims, curriculum and types of education; religious and political influences on education.

**Psychology of Teaching and Learning**  
3 cr.  
11370 EDU-3251-010 (5/28-6/25) TWTh 5:00-7:00 p.m.  
Dr. Wojcik B023A  
The application of learning theory to classroom teaching.

**HUMAN SERVICES**

**Life Skills Planning**  
3 cr.  
11479 HS-3600-010 (5/28-6/25) TWH 4:30-6:50 p.m.  
Dr. Ramirez B024  
Determination of personal and professional life goals from the perspective of one’s own strengths and weaknesses. Helping others in the process of selecting career paths and developing self and peer helping skills. Recommended for undergraduate students interested in the decision-making factors in career selections.

**Human Services Independent Study**  
3 cr.  
11692 HS-3900-020 (6/27-7/28) TBA  
Dr. Kahn  
Supervised research or field experience project and paper. Students may only register for this class once, and it cannot take the place of any Human Service course requirements.

#### GRADUATE COURSES

**EDUCATION**

**Current Issues in American Education**  
3 cr.  
11375 EDU-8610-010 (5/28-6/25) TWTh 4:30-6:45 p.m.  
Dr. Heitzmann SA210  
Critical issues for the administrator, counselor, and teacher are discussed. Students are grouped according to their areas of concentration so that the issues chosen reflect their concerns.

**Comparative Education**  
3 cr.  
11377 EDU-8669-020 (6/27-7/28) MW 1:45-5:00 p.m.  
Dr. Brooks SA410  
Educational ideals, systems, and problems of the United States and selected foreign countries. Special reference given to curriculum development and teaching materials in each country.
History of American Education 3 cr.
11378 EDU-8671-020 (6/27-7/28) TTh 5:15-8:45 p.m. Dr. Brooks SA410
The principal movements in American education and their leadership, including college and university development, public and parochial schools, teacher education, progressive education and role of the federal government. Approval of Chairperson required. Masters Plus Certification Students only.

Technology in Teaching 3 cr.
11379 EDU-8676-010 (6/23-6/27) MTWThF 9:00 a.m.-4:00 p.m. Dr. Durnin F307
11380 EDU-8676-020 (7/7-7/11) MTWThF 9:00 a.m.-4:00 p.m. Dr. Durnin F307
Examination of a variety of technological applications appropriate to elementary and secondary teaching. Emphasis is upon the use of computers, CD-ROMs, laser discs, the Internet, World Wide Web, Hypercard and multimedia with classroom instruction. Laboratory experiences with various technologies will be provided. Course will allow for differentiated learning experiences based upon previous technical skills.
11379 EDU-8676-010 - Master’s Plus Certification Students only.

Multiculturalism 3 cr.
11381 EDU-8678-020 (6/27-7/28) MW 1:45-5:00 p.m. Dr. Fierros B024
Issues of race, culture, sexual orientation, and special education as they are related to the understanding and practice of education. Master’s Plus Certification Students only.

Independent Study and Research I 3 cr.
11382 EDU-9031-010 (5/28-6/25) TBA Dr. Heitzman

COUNSELING AND HUMAN RELATIONS

Special Education for Counselors and Teachers 3 cr.
11290 CHR-8600-020 (6/27-7/28) TTh 1:00-4:30 p.m. Ms. Sterling SA110
Focuses on children with special needs, and the role of the guidance counselor and teacher in working with them.

Research and Evaluation 3 cr.
11291 CHR-8604-020 (6/27-7/28) MW 5:15-8:45 p.m. Dr. Fierros B024
Analysis of major types of social science research; familiarization with research resources and literature survey procedures; evaluation of research; its implications for, and its applications to counseling; practice in using common research procedures.

Laboratory in Counseling Skills 3 cr.
11292 CHR-8605-010 (5/28-6/25) TTh 4:30-6:45 p.m. Dr. Kahn T237
Introductory course in counseling focusing on such skills as attending, listening, perceiving, reflecting, summarizing, questioning, confronting, goal-setting and decision-making. Ethical and professional issues will also be discussed. Students will participate in experiential exercises and/or actual counseling sessions utilizing these skills.

Laboratory in Group Dynamics 3 cr.
11293 CHR-8655-010 (5/28-6/25) TTh 7:00-9:20 p.m. Dr. Monnig T237
An experiential course requiring participation in an on-going growth group for a semester. The course is designed as a place where students can learn more about themselves and their interaction with, and reactions to, others. Permission by the instructor for those outside the Counseling and Human Relations program.

School Counseling Orientation 3 cr.
11294 CHR-8680-010 (5/28-6/25) TTh 7:00-9:20 p.m. Dr. Kahn T231
To develop a guidance philosophy, objectives and goals, that are complementary and consistent with the philosophy of the school and to develop the counselor as a catalyst to produce a positive environment for learning.
Consultation Processes 3 cr.
11295 CHR-8683-020 (6/27-7/28) TTh 5:15-8:45 p.m. Dr. Davis SA310
The effective use of the techniques of counseling in the application of consultative services are explored. Basic individual and group skills, organizational structure and effective communication are presented.

Lifestyle and Career Development 3 cr.
11296 CHR-8685-010 (5/28-6/25) TWTh 4:30-6:45 p.m. Dr. Tierno SA310
This course focuses upon various psychological theories of career development and vocational adjustment with an emphasis on vocational and lifestyle choice processes across a lifespan.

Group Counseling Theory and Practice 3 cr.
11297 CHR-8686-010 (5/28-6/25) TWh 7:00-9:20 p.m. Dr. Lerner T245
An examination of group development theories, concepts in leadership, ethical and professional issues in groups. Students will observe and critique a beginning group. To help integrate the experiential with the theoretical components of group study, a group experience and an opportunity to co-facilitate the group are included. Advanced Groups only. Prerequisite: CHR 8687.

Counseling Theory and Practice 3 cr.
11298 CHR-8687-020 (6/27-7/28) MW 5:15-8:45 p.m. Dr. Schmidt T237
A study of the major counseling theories and practices used in helping relationships utilizing various counseling techniques in simulated and actual situations.

Co-Facilitating Groups 3 cr.
11299 CHR-8695-010 (5/28-6/25) TBA Dr. Monnig
A practicum experience in co-facilitating groups will give the student practice in conducting a group, dealing with leadership styles, group problems, and difficult group member types.

Crisis Interventions 3 cr.
11300 CHR-8840-010 (5/28-6/25) TWTh 4:30-6:45 p.m. Dr. Monnig T231
Overview of critical issues causing situational and developmental crisis such as HIV/AIDS, Rape, Sexual abuse, Child abuse, Eating disorders, and Crime/Violence. Theory and lab experience in crisis work. Exploration of Community Resources.

Family Interventions 3 cr.
11301 CHR-8845-020 (6/27-7/28) MW 5:15-8:45 p.m. Dr. Luquet SA210
Family therapy and theories of family development, crisis, and change over the life cycle. Patterns of family-member interaction. Emphasis is on working with families around child-parent marital problems in order to open communication, identify problems, and resolve conflict. Prerequisites: CHR 8605, CHR 8655 and CHR 8687 (Minimum Grade of C).

Internship and Seminar II in Community Counseling 3 cr.
11302 CHR-8851-010 (5/28-6/25) TWh 1:00-3:20 p.m. Dr. Monnig T231
Supervised field experience in an approved community agency providing on-site supervision and in-depth experiences in counseling; intensive study and application of various techniques of counseling, critiquing live and simulated counseling sessions using audio and videotape methods.

Therapeutic Strategies for Working with Children 3 cr.
11303 CHR-8854-020 (6/27-7/28) TTh 5:15-8:45 p.m. Ms. Sterling SA110
Participants will learn techniques involved in play therapy, child counseling, and consulting with teachers, parents, and other professionals. Actual practice will be included.

Appraisal in Counseling 3 cr.
11304 CHR-8855-020 (6/27-7/28) MW 5:15-8:45 p.m. Dr. Hirallal SA110
A survey of psychological tests and instruments commonly used in schools and agencies providing human services. Following a review of scoring interpretation and uses of various instruments including standardized intelligence, personality and psychomotor tests will be given.

3 cr.
11139 LST-7301-030 (5/28-7/28) W 6:15-9:30 p.m. 
Dr. McCarraher/Dr. Pattnayak B1064

How have past societies led to ours? How does ours differ from theirs? What should our responses be to the similarities and differences between our society and those of other periods? This course in Great Books of History and Sociology offers critical insights into
these and other important questions about these two fields. Each class session is team taught by two professors who have made important contributions to their respective fields, using great books that are widely recognized for their influence in History and Sociology. The discussions in class and written assignments focus on the most important arguments made in these works.

Introductory Statistics I
11515 MAT-1230-035 (5/28-7/28) Dr. Lupinacci
This is a Distance Learning section of this course. Please see page 75 for more information.

Calculus I
11516 MAT-1500-010 (5/28-6/25) MTWThF 10:30 a.m.-12:50 p.m. Dr. Fleischman JB202A
11517 MAT-1500-030 (5/28-7/28) MW 5:20-8:00 p.m. Dr. Kleiber MG90
Limits, transcendental functions (logarithms, exponential functions, inverse trigonometric functions), differentiation (definition, tangent lines, rates of change, techniques, implicit differentiation, related rates), applications of differentiation (graphing, optimization), indeterminate forms and L'Hopital's Rule. Use of a computer algebra system, e.g. MAPLE.

Calculus II
11518 MAT-1505-020 (6/27-7/28) MTWThF 10:30 a.m.-12:50 p.m. Ms. Simone MG92
11519 MAT-1505-030 (5/28-7/28) TTh 5:20-8:00 p.m. Mr. Santomas JB202A
Integration (indefinite, definite), applications of integration (area, volume, applications to physics and economics, etc.), methods of integration approximate integration (trapezoidal and Simpson's rules), improper integrals, differential equations, infinite sequences and series. Continued use of a computer algebra system. Prerequisite: MAT 1500.

Internship Elective
11520 MAT-1906-030 (5/28-7/28) TBA
Staff

Calculus III
11521 MAT-2500-020 (6/27-7/28) MTWThF 1:00-3:20 p.m. Mr. Chiacchiere MG92
11522 MAT-2500-030 (5/28-7/28) MW 5:20-8:00 p.m. Dr. Styer M115
Parametric equations, polar, cylindrical, and spherical coordinates; vectors and the geometry of space; vector functions (derivatives, integrals, curvature, etc.); partial derivatives; optimization; multiple integration and its applications; vector calculus (line integrals, vector analysis). Continued use of a computer algebra system. Prerequisite: MAT 1505.

Differential Equations with Linear Algebra
11523 MAT-2705-030 (5/28-7/28) TTh 5:20-8:00 p.m. Dr. Hartmann MG88
First order and linear second order differential equations, matrices, and linear equation systems, eigenvalues and eigenvectors, and linear systems of differential equations. Prerequisite: MAT 1505.
Internship Program 3 cr.
11524 MAT-2993-030 (5/28-7/28) TBA Staff

Internship Program 6 cr.
11525 MAT-2996-030 (5/28-7/28) TBA Staff

Independent Study 1 cr.
11526 MAT-5991-030 (5/28-7/28) TBA Staff
Reading in a selected branch of mathematics under the direction of a member of the staff. May be repeated for credit. Prerequisite: MAT 1505.

Independent Study 3 cr.
11527 MAT-5993-010 (5/28-6/25) TBA Staff

11530 MAT-5993-031 (5/28-7/28) TBA Staff
11531 MAT-5993-032 (5/28-7/28) TBA Staff
Reading in a selected branch of mathematics under the direction of a member of the staff. May be repeated for credit. Prerequisite: MAT 1505.

GRADUATE COURSES

Mathematical Modeling 3 cr.
11712 MAT-8435-030 (5/28-7/28) T 6:00-9:30 p.m. Dr. Norton M256
Model construction, Markov chains, game theory, networks and flows, growth processes and models for epidemics and queues with an emphasis on model construction.

Selected Topics I 3 cr.
11711 MAT-8790-030 (5/28-7/28) MW 6:00-8:00 p.m. Dr. Pigeon M258
Particular topics of study determined on a year-to-year basis to suit the desire and preparation of students.

Independent Study 3 cr.
11532 MAT-8800-030 (5/28-7/28) TBA Staff
11533 MAT-8800-031 (5/28-7/28) TBA Staff
11534 MAT-8800-032 (5/28-7/28) TBA Staff
Reading in a selected branch of mathematics under the direction of a member of the faculty.

MECHANICAL ENGINEERING

Dr. Nataraj, Chair
Office: 111 Tolentine
Phone: 610-519-4980

Engineering Computation 3 cr.
11535 EGR-1705-030 (5/28-7/28) MW 2:25-5:55 p.m. Mr. Fulmer CEER314
Course serves as an introduction to the use of computers in engineering and to problem solving in engineering. The analysis of problems will be accomplished using Mathcad, Excel, and Matlab. Programming structures such as decisions, loops and functions will be covered wherever appropriate. Course will provide students with a range of skills which will be useful not only in the engineering curriculum but also during their engineering career.

11536 EGR-1705-D35 (5/28-7/28) Mr. Fulmer
This is a Distance Learning section of this course. Please see page 75 for more information.

Introduction to Dynamics 3 cr.
11538 ME-3150-030 (5/28-7/28) MW 6:00-8:00 p.m. Dr. Alaways M260
Kinematics, velocity and acceleration of points on rigid bodies using cartesian, cylindrical, and tangent-normal reference frames. Mass center motion of contact force free bodies;
Selected Topics in ME 0-4 cr.
11539 ME-5000-030 (5/28-7/28) TBA Staff
Independent study or research on a current engineering topic. Senior standing and permission of chairperson.

Environmental Engineering 3 cr.
11540 ME-5107-030 (5/28-7/28) TTh 6:00-8:00 p.m. Mr. Witkowski M260
The engineering principles underlying the current practices of heating, ventilating, air conditioning, and refrigeration systems design. Prerequisite: ME 3100 or HON 2231.

Fracture and Fatigue 3 cr.
11541 ME-5301-030 (5/28-7/28) W 6:00-10:00 p.m. Dr. Jen M341
Failure, structure of materials, stress-strain equations, mechanical testing, yielding & fracture, fracture of cracked members, fatigue of materials, stress-based approach to fatigue, fatigue crack growth, creep. Prerequisites: ME 3300 and ME 3402.

GRADUATE COURSES

Doctoral Research 3 to 9 cr.
11537 EGR-9100-030 (5/28-7/28) TBA Staff
For accepted Ph.D. candidates conducting research as part of the Doctorate of Engineering degree requirements. The chair of the student’s guidance committee is responsible for evaluating the performance of the student.

Computer-Aided Production Planning 3 cr.
11542 ME-7402-010 (5/28-6/25) MW 2:00-6:00 p.m. Dr. Radhakrishnan CEER010
Static and dynamic production planning models, operations scheduling, inventory control, forecasting, queuing theory. Undergraduate students must obtain permission of the department chair.

This is a Distance learning section of this course. Please see page 75 for more information.

Mechanical and Thermal Behavior of Solids 3 cr.
11544 ME 8302-030 (5/28-7/28) T 6:00-10:00 p.m. Dr. Jen M341
Mechanisms for plastic deformation, creep, fatigue, and fracture; effects of stress, defects, structure, temperature, and corrosive environments on material behavior.

Independent Study 3 cr.
11545 ME-9000-030 (5/28-7/28) TBA Dr. Nataraj
Individual supervised study on special topics in Mechanical Engineering. May include some research related to the topics. Approval of Chair and faculty advisor.

Thesis Research I 3cr.
11546 ME-9031-030 (5/28-7/28) TBA Dr. Nataraj
Supervised participation in thesis research; registration to be approved by department chairperson and thesis advisor.

Thesis Research II 3 cr.
11548 ME-9032-030 (5/28-7/28) TBA Dr. Nataraj
Second course of supervised participation in thesis research; registration to be approved by department chair and thesis advisor.
Thesis Continuation
11550 ME-9080-030 (5/28-7/28) TBA 0 cr. Dr. Nataraj

Independent Study Continuation
11551 ME-9085-030 (5/28-7/28) TBA 0 cr. Dr. Nataraj

Graduate Practicum
11552 ME-9086-030 (5/28-7/28) TBA 1 cr. Dr. Nataraj

Graduate Practicum Continuation
11553 ME-9087-030 (5/28-7/28) TBA 0 cr. Dr. Nataraj
Continuation of Mechanical Engineering Graduate Practicum. Required for extension of Curricular Practical Training (CPT).

Groundwork in French, including oral proficiency, aural comprehension and reading; for students with no prior knowledge of French or one year of high school French. Supplementary language laboratory work and oral drills.

Intermediate French I
11412 FRE-1121-010 (5/28-6/25) MTWThF 8:30-10:20 a.m. 3 cr. Dr. Waggaman SA110
Review of grammar, composition, reading and conversation. Students should have completed FRE 1111 and 1112 or the equivalent.

Intermediate French II
11413 FRE-1122-020 (6/27-7/28) MTWThF 8:30-10:20 a.m. 3 cr. Ms. McMonigle SA210
Review of grammar, composition, reading and conversation. Students should have completed FRE 1121 or the equivalent.

Conversation and Composition I
11414 FRE-1131-020 (6/27-7/28) MTWThF 10:30 a.m.-12:20 p.m. 3 cr. Mr. Whidden SA310
Intense practice in conversation and composition with emphasis on developing advanced language skills in French. A writing enriched course. Students should have completed FRE 1121 and 1122 or the equivalent.

LeTour de France
11415 FRE-3212-010 (5/28-6/25) MTW 6:00-8:20 p.m. 3 cr. Mr. Whidden SA310
The world’s greatest race as seen in literature, the arts, and as it is currently presented, and followed, in French media. Prerequisite: FRE 1131
GERMAN

Introductory German I 4 cr.
11175 GER-1111-010 (5/28-6/25) MTWTh 6:00-8:20 p.m. Dr. Helmetag T213
Groundwork in German, including oral, aural and reading skills. Supplementary oral drills.

Introductory German II 4 cr.
11176 GER-1112-020 (6/27-7/28) MTWTh 6:00-8:20 p.m. Dr. Helmetag T213
Groundwork in German, including oral, aural and reading skills. Supplementary laboratory work and oral drills.

German for Translation 3 cr.
11174 GER-1113-010 (5/28-6/25) MTWThF 10:30 a.m.-12:20 p.m. Dr. Helmetag T213
Essentials of grammar and exercise for reading comprehension and translation.

Intermediate German I 3 cr.
11177 GER-1121-010 (5/28-6/25) MTWThF 8:30-10:20 a.m. Dr. Helmetag T213
Review of grammar, composition, reading and conversation. Students should have completed GER 1111 and 1112 or the equivalent.

Intermediate German II 3 cr.
11178 GER-1122-020 (6/27-7/28) MTWThF 8:30-10:20 a.m. Dr. Helmetag T213
Review of grammar, composition, reading and conversation. Students should have completed GER 1121 or the equivalent.

ITALIAN

Introductory Italian I 4 cr.
11170 ITA-1111-010 (5/28-6/25) MTWTh 10:30 a.m.-1:00 p.m. Dr. Pastore SA310
F 10:30 a.m.-12:20 p.m.
Groundwork in Italian, including oral proficiency, aural comprehension and reading for students with no prior knowledge of Italian. Supplementary language laboratory work and oral drills.

Introductory Italian II 4 cr.
11171 ITA-1112-020 (6/27-7/28) MTWTh 10:30 a.m.-1:00 p.m. Dr. Pastore T204

Nursing and Health Promotion 6 cr.
11570 NUR-4102-030 (5/28-7/28) TTh 9:00 a.m.-1:00 p.m. Dr. Frain/Dr. Fetter SMAUD
Nursing and educative interventions which promote the health of groups. Focus on health needs of populations and management of health risks. Prerequisites: NUR 4101 and NUR 4103.

Practicum in Nursing and Health Promotion 6 cr.
11573 NUR-4107-030 (5/28-7/28) MW 8:00 a.m.-2:00 p.m. Dr. Frain/Dr. Fetter TBA
Application of health promotion strategies to groups composed of individuals, family and community members. Class meets in Hospital. Community Settings. Prerequisites: NUR 4101 and NUR 4103.

Contemporary Issues and Trends 2 cr.
11576 NUR-4130-020 (6/27-7/28) TTh 2:00-4:30 p.m. Dr. Walsh SMAUD
Critical analysis of major issues and trends in nursing and health care.

Guided Study in Nursing 1 cr.
11579 NUR-4900-030 (5/28-7/28) TBA Dr. Keen

GRADUATE COURSES

Explorations in Loss 3 cr.
11580 NUR-7082-010 (5/28-6/25) MW 4:30-7:45 p.m. Dr. Copel SM019
Social, cultural and psychological conditions that influence human grief in modern society.

Issues in Health and Delivery Systems 3 cr.
11581 NUR-8900-030 (5/27-6/6) MTWThF 9:00 a.m.-4:00 p.m. Dr. Sharts-Hopko SMLIB
Ph.D. students only.

Advanced Pathophysiology 3 cr.
11582 NUR-8901-035 (5/28-7/28) Dr. Capriotti
This is a Distance Learning section of this course. Please see page 75 for more information.

Development of Nursing Science 3 cr.

INTERNSHIP PROGRAM
Ms. Ebert, Director
Office: 420 St. Augustine
Phone: 610-519-4232

The College of Arts and Sciences offers qualified matriculated students of the University the opportunity to integrate theory and research with practical experience through the Internship Program. The Program is designed to help students build a relationship with professionals in the private and public sectors, make career choices, experience entry level activities, discover long-term interests and aspirations. The Internship Program maintains the academic integrity of the liberal arts and sciences curriculum by careful supervision of the student. An internship might take place nationally, and normally parallel the summer sessions in duration. The amount of credit awarded depends on the nature and extent of the internship, and the needs and interests of the student. The internship application process begins with the director of the program.

DISTANCE LEARNING
For summer 2008, Villanova summer sessions will offer forty-six undergraduate courses and nine graduate courses which may be completed away from the campus while still earning Villanova credits toward your degree. These courses will use computers, the Internet, e-mail, CDrom or a combination of these formats. Students should contact the faculty member concerning specific hardware/software requirements before registering. Please contact the department for information on registering for the graduate courses.

UNDERGRADUATE COURSES

Principles of Financial Accounting 3 cr.
11148 ACC-1101-035 (5/28-7/28) Dr. Derstine
11149 ACC-1101-036 (5/28-7/28) Dr. Derstine
Understanding business by being able to understand the financial statements. Accounting concepts, transaction analysis, analytical procedures, valuation and allocation, revenue recognition, expense matching, and cash flow analysis—operating, investing, and financing. Includes appropriate use of technology. For additional information, please contact Dr. Derstine at robert.derstine@villanova.edu.

Principles of Managerial Accounting 3 cr.
11152 ACC-1102-035 (5/28-7/28) Dr. Licata
How management accounting information can be used to help firms achieve strategic goals and profitability objectives. Use of an entrepreneurial perspective to examine how managers apply risk measurement and management techniques to business planning and control systems. Case-based learning to help students develop communication, technology, and teamwork. Prerequisite: ACC 1101 or HON 1101. For additional information, please contact Dr. Licata at michael.licata@villanova.edu.
Accounting Information Systems
11154 ACC-2340-035 (5/28-7/28) Dr. Borden
11155 ACC-2340-036 (5/28-7/28) Dr. Borden
This course offers both a conceptual overview and hands-on experience with a variety of AIS related material. Topics covered include: Semantic modeling and event driven accounting information systems (AIS); development, documentation, control and audit of AIS, with particular reference to the COBIT framework; an overview of XBRL and its role in financial reporting; the use of database management software and accounting software in developing modern AIS. Prerequisites: (ACC 1102 or HON 1102) and (DIT 1006 or MIS 1006 or HON 1016). For additional information, please contact Dr. Borden at james.borden@villanova.edu.

Human Physiology - How Your Body Works
4 cr.
11196 BIO-1655-025 (6/27-7/28) Dr. Stephens
11197 BIO-1655-035 (5/28-7/28) Dr. Stephens
This on-line course examines how the human body works. The course is divided into three categories: (1) lecture, (2) laboratory and (3) term papers. The lecture portion of the course is delivered over the web and uses audio with a combination of text, diagrams, movies and animated sequences. Each lecture usually starts with an article from a web source like CNN-Health. Sufficient physiology is then presented for you to understand the article. The idea is to present lectures as a series of related topics and issues rather than a general review of physiology. Each lecture is designed to allow you to progress at your own pace, and within your own time frame. Each of the four lecture exams is done on-line and within a programmed time frame; each counts 15% of the final grade. The on-line laboratory experience uses simulations, animations and movies of real experiments. Students are expected to send a summary of their measurements and data, placing their observations into the framework of the knowledge they have gathered in class. Graded reports are then returned and they count 20% of the final course grade. The two web-based term papers revolve around some aspect of body dysfunction and each is worth 10% of the final grade. Although local students are welcome to come to Villanova to talk with the instructor there are no requirements for an initial orientation meeting. All communication is done via e-mail, the bulletin board, or the telephone, and daily (usually evening) office hours are posted. Each student can monitor their progress through a password-protected page where their grades are posted. Students require access to an on-line computer and a web browser with the (free) Flash plug-in. All programs have been written in HTML and Flash, and (to date) no problems have been encountered with fire walls. A course description and orientation to this course can be found at the following URL: http://www10.homepage.villanova.edu/phil.stephens. For additional information, please contact Dr. Stephens at phil.stephens@villanova.edu.

Theories of Persuasion
3 cr.
11321 COM-2280-015 (5/28-6/25) Mr. Arnold
Presents the theoretical processes by which communication influences the attitudes, beliefs, and behaviors of message recipients. Both rhetorical and social scientific approaches to persuasion are examined. Application is made to the areas of advertising, public relations, politics and health communication. Media/Film Studies. For additional information, please contact Mr. Arnold at derek.arnold@villanova.edu.

Theories of Visual Communication and Culture
3 cr.
11322 COM-2340-025 (6/27-7/28) Dr. Coonfield
Introduction to the major theoretical and methodological approaches to the study of images as communicative phenomena. Explores the philosophical and strategic implications of these approaches and applies them both to the analysis and production of visual messages in a variety of media and contexts. For additional information, please contact Dr. Coonfield at gordon.coonfield@villanova.edu.

Gender and Communication
3 cr.
11326 COM-3406-015 (5/28-6/25) Dr. Bowen
Communication of women and men against the backdrop of society and feminism in such communicative contexts as families, schools, friendships and relationships, organizations, media, and technology. integration; international financial crises and system reform, open economy macroeconomics, poverty, international organizations. Prerequisites: (ECO 1001 or HON 1080) and (ECO 1002 or HON 1081). For additional information, please contact Dr. Wolnicki at miron.wolnicki@villanova.edu.

**Fundamentals of Electrical Engineering II**
3 cr.
11123 ECE-2054-D35 (5/28-7/28) Dr. Mercede
This is the second course of a year-long sequence on the fundamentals of Electrical Engineering. The topics of this second course are second-order circuits, ac circuit analysis, ac power and three-phase circuits, frequency response plots, resonance, and magnetically-coupled coils and transformers. This course will be delivered on a live broadcast and lecture-on-demand basis entirely over the Internet. Prerequisite: ECE 2052. For additional information, please contact Dr. Frank Mercede by phone at (610) 519-4982 or by e-mail at frank.mercede@villanova.edu.

**Fundamentals of MATLAB**
2 cr.
11124 ECE-2409-D15 (5/28-6/25) Dr. Mobasseri
Matlab is the premier language for many engineering and scientific computations. As a matrix-oriented language, the primary goal of this course is to learn to write efficient and tight code vectorized for quick execution. Other topics include 2D and 3D plotting, graph customization, importing and processing of multidimensional arrays such as images, video and CT scans. The course is delivered entirely over the internet via WebCT. Lectures are delivered in high quality digital video synchronized to class powerpoint slides. For best results students are expected to have access to broadband connection. For additional information, please contact Dr. Mobasseri at bijan.mobasseri@villanova.edu or 610 519-4958.

**Engineering Computation**
3 cr.
11536 EGR-1705-D35 (5/28-7/28) Mr. Fulmer
Course serves as an introduction to the use of computers in engineering and to problem solving in engineering. The analysis of problems will be accomplished using Mathcad, Excel, and Matlab. Programming structures such as decisions, loops and functions will be covered wherever appropriate. Course will provide students with a range of skills which will be useful not only in the engineering curriculum but also during their engineering career. For additional information, please contact Mr. Fulmer at howard.fulmer@villanova.edu.

**Journalism**
3 cr.
11387 ENG-2020-015 (5/28-6/25) Dr. Hollis
News gathering and news writing; principles, rules and techniques of news, editorials, features. A practicum with lectures. Use of computers and word processing. Writing Intensive. For more information, please check the course web page: http://www.9.homepage.villanova.edu/karyn.hollis/profacademic/Courses2020/2020mainpage.htm or contact Dr. Hollis at karyn.hollis@villanova.edu.

**Topic: Technical Editing**
3 cr.
11388 ENG-2045-035 (5/28-7/28) Ms. Graziano
This course teaches students how to edit technical documents such as reports, proposals, and manuals for elements of good writing including knowledge of the target audience, correct grammar, logical organization, sound structure, and fluent style. Topics presented include proofreading, copyediting, developmental editing, and working with clients. For additional information, please contact Ms. Graziano at karen.graziano@villanova.edu.

**Topic: Advanced Business Writing**
3 cr.
11389 ENG-2045-036 (5/28-7/28) Ms. Graziano
Good writing matters in business. Business professionals, communication specialists, and consultants are charged with writing letters, memos, business reports, and proposals on a daily basis. Writing problems impede their persuasiveness and credibility. This course teaches business writing techniques that will enable students to work effectively in any professional environment. This course builds on the skills learned in ENG 1010; however, no previous business writing experience is necessary. For additional information, please contact Ms. Graziano at karen.graziano@villanova.edu.
Catholic Writers: Selected Modern Readings 3 cr.
What does it mean to be a Catholic writer? This course will answer that question by introducing you to a few of the most engaging Catholic writers and poets of the 20th century and beyond. Perhaps you recognize the names Flannery O'Connor, Graham Greene, Seamus Heaney—Catholics all, yet you may not have known how their faith informs their work. We will undertake that investigation in this distance learning class with readings supplemented by bi-weekly chat sessions, online video and audio selections, WebCt discussions, and two real time discussions in Second Life, an online virtual world. Cross listed with HUM-2900-X15 and THL-5800-X15. For additional information, please contact Dr. Hollis at karyn.hollis@villanova.edu.

Ethical Traditions and Contemporary Life 3 cr.
11695 ETH-2050-015 (5/28-6/25) Staff
11694 ETH-2050-025 (6/27-7/28) Staff
Major Western ethical traditions as they apply to selected contemporary ethical problems, with special consideration to Jewish and Christian perspectives. This course satisfies the Arts and Sciences Writing Enriched requirement. For additional information, please contact the Ethics Department at 610-519-4692.

Principles of Finance 3 cr.
11401 FIN-1113-015 (5/28-6/25) Dr. McWilliams
11402 FIN-1113-016 (5/28-6/25) Dr. McWilliams
The theory and techniques of financial management. Time value of money; risk and return; financial analysis and planning; working capital management, capital budgeting; cost of capital; strategic long-term financing decisions. Junior or Senior standing. Laptop required. Prerequisites: (ACC 1101 or HON 1101) and (DIT 2010 Concurrency: Yes or HON 2010 Concurrency: Yes or MAT 1235 Concurrency: Yes or MAT 2310 Concurrency: Yes or MAT 4310 Concurrency: Yes or ECE 3720 Concurrency: Yes) and (ECO 1001 or HON 1080) and (ECO 1002 or HON 1081) and (DIT 1006 or MIS 1006 or HON 1016). Ethics and Leadership 3 cr.
11696 LDR-2040-035 (5/28-7/28) Dr. Martini
The nature of ethical leadership. How the leader’s values and beliefs affect decision making. The concepts of organizational and social responsibility. Restricted to Part-Time Studies students in the BIS degree program. For additional information, please contact Dr. Martini at pmartini@academyleadership.com.

Introduction to MIS 3 cr.
11136 MIS-1006-015 (5/28-6/25) Dr. Wagner
11137 MIS-1006-016 (5/28-6/25) Dr. Wagner
Fundamentals of business computing applications as an introduction to the concepts of Management Information Systems. Laptop required. For additional information, please contact Dr. Wagner at william.wagner@villanova.edu.
Principles of Marketing 3 cr.
11444 MKT-1137-035 (5/28-7/28) Dr. Sanchez
Description and evaluation of the ways in which goods and services are developed to meet customer and consumer needs and distributed for domestic and international consumption; economic, government, social, and other environmental forces in relation to the marketing function; emphasis on relevant social problems and responsibilities. Students must be able to commit to an online chat session on either Monday or Tuesday evenings from 6:00-8:00 p.m. Preliminary course information will be emailed to registered class members at their Villanova email addresses in early May. Course information for Dr. Sanchez’s course can also be found at Dr. Sanchez’s Villanova web page. Prerequisite: Sophomore, Junior or Senior standing. For additional information, please contact Dr. Sanchez at peter.sanchez@villanova.edu.

Introductory Statistics I 3 cr.
11515 MAT-1230-035 (5/28-7/28) Dr. Lupinacci
Gathering, displaying and summarizing data, normal distributions, regression and correlation, and basic probability concepts. Not open to students who have completed MAT 1505. For additional information, please contact Dr. Lupinacci at paul.lupinacci@villanova.edu.

Principles of Nutrition 3 cr.
11595 NTR-2120-015 (5/28-6/25) Dr. Costello
11596 NTR-2120-016 (5/28-6/25) Dr. Costello
The course “Principles of Nutrition” provides students an opportunity to explore current research and issues related to nutrition and health. Emphasis is placed on nutrition as an integral component of mind body wellness. The students will study nutrients and their role in health promotion and disease prevention. Each student will have the opportunity to assess their own dietary habits by comparing their nutrition behavior to current recommendations. Consumer issues such as food safety, and the influence of the media on food choices will also be examined. The unique nutrient needs of the various stages of the life cycle such as pregnancy and childhood will be presented. Topics such as healthy weight management will also be studied. “Principles of Nutrition” is taught by a Registered Dietitian and offers students the experience to study the complex and interesting role nutrition plays in our overall health. There are no prerequisites for this course and it should fulfill the nutrition requirements for most Nursing Education programs. All students enrolled in the course must review their Villanova email as all initial course information will be sent to their Villanova email account in late April/early May. For additional information, please contact Dr. Costello at marcia.costello@villanova.edu.

Healthy Lifestyles and Human Values 3 cr.
11563 NUR-2200-015 (5/28-6/25) Dr. Costello
The Healthy Lifestyles and Human Values course is designed to offer college students the opportunity to consider healthy lifestyles, health-related concerns, and issues of contemporary living with a focus on personal decision-making within a context of values and responsibility. Students will be exposed to comprehensive information on life issues and be able to identify available resources for education and health promotion. Course content, assignments and other related information will be accessed via the course Internet web page, and the required course textbook. Individual online responses and dialogue among students enrolled in the course will be extensive. There are no prerequisites for this course and it should fulfill the course requirements for a free elective requirement. All students enrolled in the course must review their Villanova email as all initial course information will be sent to their Villanova email account in late April/early May. For additional information, please contact Dr. Costello at marcia.costello@villanova.edu.

Research in Nursing 3 cr.
11564 NUR-3110-015 (5/28-6/25) Dr. Cantrell
Emphasis on the methods of systematic inquiry in nursing practice. Designed to develop critical consumers of published research. For additional information, please contact Dr. Cantrell at mary.ann.Cantrell@villanova.edu.
Introduction to Philosophy

The issues of God, persons and nature, and knowledge. Readings include sources which give special consideration to the classical and Christian perspectives. For additional information, please contact Dr. Brogan at walter.brogan@villanova.edu.

Philosophy and Literature

Philosophical ideas in selected literary works; examination of how the reader’s knowledge contributes to the understanding of literature; we pay special attention to the relation between fiction and truth, the suspension of disbelief, and whether something "fictional" can be false. For additional information, please contact Dr. Lang at helen.lang@villanova.edu.

Philosophy and Film

Understood philosophically, what a film means turns up on three levels. It is revealed in the ways issues about being human are addressed and answered in a film, in how this or that representation of our relation to nature or the city or modernity, the past and the future, to race, gender, and class distinctions, to love, sadness, coming of age, and death challenges or enhances the ways we understand our everyday lives and experiences. How does a film distort, idealize, inform or correct our ordinary perception of reality? It is revealed in the ways films "mean." How do films make meaning from the otherwise random gradations of light and local or incidental sounds that are attached to reels of perforated celluloid and digital data files? It is revealed, finally, in the aesthetic qualities of films. How can we appreciate films as works of art. TEXT: Braudy and Cohen, Film Theory and Criticism, 6e (ISBN: 0195158172). REQUIREMENTS: Participation on Blackboard, seven (500 word) response papers weighted equally and averaged to equal half the final grade, and one (1500-2000 word) term paper equal to the other half of the final grade. For more go to http://www.homepage.villanova.edu/john.carvalho/Film/information or contact Dr. Carvalho at john.carvalho@villanova.edu.

The Concept of Light

Historical and analytical survey of the concept of light from classical to modern viewpoints. Open to C&F and Arts majors (fulfills Arts core science requirement when taken with PHY 1501). This WebCT course allows students to download the syllabus, assignments, and the PowerPoint presentation of the lectures. Readings are assigned for every day of the course. Final grades are based on the assignments, tests, and participation in on line discussions. A voluntary meeting at 1:00 p.m. on the Friday before the start of classes will be held in Mendel 362 for those interested in learning more about the course and/or how to participate in the course. Books required for the course are found in the Villanova University bookstore. Contact the instructor for any questions regarding this course at javad.siah@villanova.edu or 610-519-4886.

**Introduction to American Government** 3 cr.
11660 PSC-1100-025 (6/27-7/28) Dr. Thompson
This course examines the informal and formal elements of the American political system. The informal elements support the environment for democracy and security by its nation building history of federalism, constitutionalism, and civil rights buttressed by pressure groups and political parties. The formal elements are institutionalized in the elections, three branches of the central government, bureaucracy and foreign policy. Comparable to a tutorial independent course, students download the syllabus and assignments, and view the instructor's lectures and class discussions on the American issue assigned for the day. The final grade is based on 5 assignments and 3 projects scheduled entirely as asynchronous writing work, that is, there are no required times for students to be on line for chat rooms. Punctual submission of assignments and projects are essential to receive full grading credit. The required textbook is found in the Villanova University bookstore. A voluntary meeting at 2:30 P.M. on Thursday, April 24, 2008, will be held in SAC 202 for those interested in learning more about the course and/or how to participate in the course. For additional information, please contact Dr. Thompson at 610-519-4727. Note: due to his research overseas, Dr. Thompson will not be available during May and June.

THE VILLANOVA SUMMER BUSINESS INSTITUTE (SBI)

The Villanova Summer Business Institute (SBI) is a nine-week, rigorous program for undergraduate students and recent graduates with non-business majors. The program is held on the Villanova University campus, just 12 miles west of Philadelphia, and is taught by Villanova School of Business faculty members. Students may opt to reside on campus or to commute to the campus daily.

SBI is unique in its integrative approach to teaching the fundamentals of business, over arching module topics provide you with a framework within which to learn how the business world operates. The creative and demanding SBI curriculum enables you to gain an understanding of business fundamentals—including economic theory, accounting principles, financial analysis, data management, consumer behavior, the legal environment, and strategic management—while also developing cross-disciplinary skills—like verbal and written communication, decision making under adverse conditions, ethical leadership, and innovative thinking—that will help you gain a solid understanding of the big picture of business.

How to Apply:

The Villanova Summer Business Institute (SBI) is designed for Undergraduate students who are non-business majors and have completed at least one year of academic study and Graduates with degrees in liberal arts, the sciences, engineering, nursing, or other non-business majors. You may choose to complete the Summer Business Institute application online via www.business.villanova.edu/sbi or download the application to submit by mail.

Early application is encouraged. Admissions decisions are made as soon as a complete application package (all documents) is received. The application deadline is April 15, 2008. Applications will begin to be accepted beginning January 2008. Send the application, a copy of your resume, a copy of your collegiate transcript and a one-page essay about why you wish to enroll in the Villanova University Summer Business Institute to:

FREQUENTLY ASKED QUESTIONS ABOUT THE SBI

Where is SBI held?

All classes take place in Bartley Hall, the home of the Villanova School of Business at Villanova University. The University is located on a picturesque, 254-acre campus, 12 miles west of Philadelphia. Commuter rail, high speed trolley and bus transportation are available on campus, making trips to Philadelphia very convenient. You can easily take advantage of the many cultural and historic venues, fabulous restaurants and athletic events available in this world-class city.

What is the cost of the program?

The cost of the 2008 SBI is $8,500, which includes tuition, books, the use of a laptop computer, a subscription to the Wall Street Journal, iprint allowance, and transportation to corporate site visits. Additional charges apply if you choose to live on campus. A non-refundable deposit of $500 is required if accepted into the program. This deposit is applied against the program’s tuition when enrolled.

Where do SBI students live?

Students have the opportunity to enhance their SBI experience by living on Villanova’s campus. This residential component expands the learning environment beyond the walls of the classroom and facilitates group discussions and team projects. Please contact the Office of Residence Life to learn more about housing options. Villanova has also earned recognition for
the quality and variety of its campus dining options. While living on campus is encouraged, it is not mandatory. Students are free to make their own arrangements for housing and meals.

How do I apply?

The SBI application can be completed online via www.business.villanova.edu/sbi or downloaded and mailed with your transcript, essay, and resume. Enrollment is limited so applying early is strongly encouraged.

What credentials do I receive upon completion of SBI?

Villanova students who successfully complete SBI earn a business minor. Students from other universities earn a SBI certificate. In both cases, your SBI experience will broaden your skill set, strengthen your academic foundation, build your professional confidence, improve your problem solving and decision making skills, and serve as an impressive credential on your resume.

Can students from other schools attend?

Absolutely! The Summer Business Institute is open to qualified students from any accredited school or university located in the United States or abroad. SBI can also help recent non-business graduates gain business insights that can help them be more productive in their first job.

Are there any special requirements or minimum GPA's?

You must be in good academic standing at your institution and have successfully completed your freshman year (generally 30 credits). While there is no minimum GPA requirement for admission, space will be assigned to the strongest candidates first.

If I've already taken a few of the required courses for a business minor, can I finish my minor at the Summer Business Institute?

The Summer Business Institute is not an appropriate way to complete a business minor already in progress due to the integrated design of the curriculum.

What’s my next step?

Interested Villanova students should discuss the SBI with their academic advisor to ensure they understand how SBI credits will be handled within their school. Additionally, students from outside Villanova should discuss this opportunity with the appropriate advisors at their institution.

More Questions?

Plan on attending one of the SBI information sessions scheduled for Bartley Hall or contact the Clay Center at sbi@villanova.edu or 610.519.6707.
WHERE WILL YOU BE NEXT SUMMER?

Villanova University sponsors International Summer Programs in Europe, Asia, and Latin America. These summer programs, open to both VU and non-VU students, offer opportunities in three areas of study:

- Business Programs
- Language & Literature Programs
- Arts & Culture Programs

These summer programs are either intensive language, literature and civilization programs, business programs, internship programs, or area studies programs.

The Office of International Studies (OIS) plans, coordinates, and implements all Villanova University overseas study programs and study centers. Additionally, the OIS coordinates various on-campus, international educational activities. VU summer programs are directed by Villanova University Faculty Program Coordinators (FPC) from all academic disciplines and departments. Instruction is offered by VU Faculty Program Coordinators as well as faculty members associated with the host institution.

General Requirements

- 2.5 GPA on a 4.0 scale; some programs require a higher GPA.
- Full-time university status without disciplinary or academic probation or financial holds.
- Students must attend program through the stated dates.
- Additional Academic Requirements and/or Special Instructions may be listed on the specific program descriptions.

Please visit us on our Web site and download the summer program application packet which includes all the information and necessary forms: www.villanova.edu/vpaa/intlstudies/.

Summer Applications are due NO LATER than March 7, 2008. Admission is based on rolling admissions, programs may fill prior to March 7, 2008. All forms and summer program applications can be found on the OIS Web site.
