If you can not duplicate your display to a projector, follow the steps below:

Press Window Key + P → Choose “Computer Only”.
Right click anywhere on the desktop and choose “NVIDIA Control Panel”.

On the left hand side, select “Set up multiple displays” under the “Display” section.
NVIDIA nView technology allows you to specify how you would like to use multiple displays.

1. Select the displays you want to use.

<table>
<thead>
<tr>
<th>Intel® HD Graphics Family</th>
<th>Dell XPSNP</th>
<th>2</th>
</tr>
</thead>
<tbody>
<tr>
<td>Laptop Display</td>
<td></td>
<td>1</td>
</tr>
</tbody>
</table>

   My display is not shown...

2. Drag the icons to match your display configuration.
Ensure both displays (Laptop Display and Projector Name) are selected. Right click on Display 1 and choose the “Duplicate using 1 as source” option.

Click “Apply” to complete the process to Mirror displays.
