If you want an undergraduate experience focused on the pursuit of meaningful change—one that challenges you to grow, to achieve and to make a real difference in the world—we welcome you to explore Villanova University. Start now. Ignite Change. Check out the only at nova sections that help define the things you can’t experience anywhere else.
What sets Villanova University apart is its Augustinian Catholic intellectual tradition, which is the cornerstone of an academic community in which students learn to think critically, act compassionately and succeed while serving others. Villanova prepares students to become ethical leaders who create positive change everywhere life takes them.

Rooted in its Augustinian tradition, Villanova offers a distinctive experience built upon:

- academic excellence
- personal attention
- a strong community
- an emphasis on service to others
- a foundation for lifelong success

The strength of the Villanova experience comes from the University’s welcoming community. Villanovans are united by a shared responsibility to uphold the ideals of St. Augustine and let the principles of truth, unity and love guide their lives. The Villanova community helps students grow intellectually, professionally and spiritually, and challenges them to reach their full potential.

St. Augustine

Villanova was founded by the Roman Catholic Order of St. Augustine (pronounced “ah-GUST-in”), Augustine of Hippo (354–430)—a theologian, prolific author and teacher—believed in the concept of a community of learners, whereby each person—in sharing his or her individual talents with the larger group—achieves spiritual, personal and intellectual growth.
Individualize Your Education

Maybe you already know what you would like to study. Or perhaps as you grow and change, your interests will grow and change, too. Although certain core courses are required, you can customize your experience through options around international experiences, research projects, and foreign languages.

**Academics**

**Bachelors of Arts**
- Arab and Islamic Studies
- Art History
- Classical Studies
- Communication
- Criminology
- Cultural Studies

**Bachelors of Science**
- Astronomy and Astrophysics
- Biochemistry
- Biology
- Chemistry
- Cognitive and Behavioral Neuroscience
- Comprehensive Science
- Computer Science
- Environmental Science
- Mathematics
- Psychology

**Interdisciplinary Concentrations**
- Africana Studies
- Augustinian in Dialogue with Faith and Culture
- Biochemistry
- Cognitive Science
- Ethics
- Irish Studies
- Peace and Justice

**Bachillerato de Ciencias**
- Doctor of Medicine—seven years
- Jefferson College of Health Professions of Thomas Jefferson University—6 years
- University of Pennsylvania School of Dental Medicine—7 years
- Doctor of Dental Medicine—7 years
- Pennsylvania College of Optometry at Salus University—Doctor of Optometry—7 years

**Villanova School of Business**
- Doctor of Business Administration
- Master’s in Occupational Therapy—6 years
- Master of Science in Nursing—7 years
- Doctor of Physical Therapy—6 years

**College of Engineering**
- Bachelor of Science in Electrical Engineering
- Bachelor of Science in Mechanical Engineering

**College of Nursing**
- Bachelor of Science in Nursing

**Accelerated Bachelors’/Masters’ Degree Programs are Available in the Following Areas:**
- Accounting
- Applied Statistics
- Biology
- Chemical Engineering
- Chemistry
- Computer Engineering
- Computer Science
- Education (Secondary)
- Electrical Engineering
- Hispanic Studies
- Information Technology
- Information Science
- International Business
- International Business Administration
- Marketing
- Mathematics
- Mechanical Engineering
- Nursing
- Political Science

The Liberal Arts at Villanova

If you’re intellectually curious and ambitious, Villanova is the place to be. Foundational programs in the liberal arts exemplify the Augustinian tradition of blending academic rigor with a commitment to social justice.

When you study liberal arts at Villanova, you challenge yourself to build your independent thinking, analytical abilities and communication skills—all within the larger context of working toward creating a better world. You develop your writing, critical reading and creative problem-solving abilities, which are highly desirable among top employers and competitive graduate schools. Above all, you embark upon a holistic learning experience focused on your academic, spiritual and personal growth.

Learn more at artsct.villanova.edu
Research Centers and Institutes include:

- Arab and Islamic Studies
- East Asian Studies
- Gender and Women’s Studies Resource Center
- Institute for Global Interdisciplinary Studies
- Latin American Studies
- Liberal Education
- The Matthew J. Ryan Center for the Study of Free Institutions and the Public Good
- Peace and Justice Education
- Russian Area Studies
- The Theology Institute

The St. Augustine Center is home to many departments including English, History, Humanities and Political Science. As a liberal arts student, you have access to a full suite of labs throughout campus:

- **Language Lab** with Microsoft Language Packs, Visual Keyboard and Photo Story
- **Communication Editing Lab** with 27-inch iMacs that have Final Cut Pro and Avid Media Composer
- **Psychology Lab** with SPSS, E-Prime and PsychMate software

The Waterhouse Family Institute for the Study of Communication and Society (WFI)

The only institute of its kind in the United States, WFI provides you with opportunities to explore the ethical dimensions of communication. You can:

- attend WFI-hosted conferences and symposia, which bring renowned scholars and professionals to campus
- participate in the Vatican Internship Program
- work on a social justice documentary
- partner with one of your faculty members on a research project
- design and complete your own research, internship experience or service initiative

In 2008, a team of Villanova undergraduates spent five nights in the Sistine Chapel photographing every corner and surface to create a state-of-the-art virtual tour. By 2010, Villanova students had brought the Sistine Chapel to life for every person on earth with access to the internet.

"There’s always someone encouraging you to think outside the box and look at problems from different perspectives." — Paul Insley, Biology major, Spanish minor

Program advisors will help you plan your personalized course of study. Through collaboration with your professors, advisors and peers, you have tremendous opportunities to pursue research, international study, service projects and co-curricular activities within your own areas of interest.

98% Employment/Graduate School Placement Rate

**Check out the virtual tour by clicking on Vatican Museums at [www.vatican.va](http://www.vatican.va).**
When you're a science major at Villanova, you're part of a vibrant community that delights in discovery. Villanova has a rich history of research and teaching in the sciences, which have been an integral part of Villanova academics since the University's founding. At Villanova, the sciences are explored within the larger context of making the world a better—and healthier—place.

Studying science at Villanova also means a strong foundation in the liberal arts, which helps you develop your writing and critical-thinking skills. Your strength in these areas makes you a more well-rounded and desirable job or graduate school candidate, and helps you cultivate your intellectual curiosity for a lifetime.
One of the greatest advantages of undergraduate scientific inquiry at Villanova is that your classes are taught by professors—not by teaching assistants. And the faculty aren’t just present in the classroom and the lab. They’re accessible to you personally for discussion, mentorship and research collaboration. Villanova faculty have gained international recognition for their research in diverse areas, from analytical environmental chemistry to integrative biology.

Villanova offers accelerated health science affiliation programs including those leading to doctoral degrees in dental medicine, medicine, optometry and physical therapy. Learn more at healthprofessions.villanova.edu.
If you want to become a business leader who desires to change the world for the better, Villanova is the place to begin. The hands-on business curriculum is challenging, relevant and grounded in Augustinian values. It prepares you for the real world by presenting information to you as it exists in the real world—integrated, fluid, and driven by technology and analytics.

No matter what business major you choose at Villanova, you learn how to solve problems creatively, to lead responsibly and to understand how your major fits within the larger context of global business. Your strengths in these big-picture areas—combined with your technical skills—help you to become a well-rounded and desirable job or graduate school candidate, and to be successful in any career path.

Learn more at business.villanova.edu
The Clay Center at VSB

The Clay Center is the hub of undergraduate program activity for business students. It serves as a “one-stop shop” offering academic advising and planning, support for internships and co-ops, and professional development opportunities. These experiences often lead to full-time jobs after graduation.

99% Employment/Graduate School Placement Rate

Business Dynamics—a year-long course taken during your first year—provides a meaningful context for your entire learning experience by pulling together the global, ethical and technological dimensions of business across disciplines. Meanwhile, you’re enrolled in liberal arts courses that further develop your writing, critical thinking and creative problem-solving abilities.

Centers of Excellence

- Center for Business Analytics
- Center for Global Leadership
- Center for Innovation, Creativity and Entrepreneurship (ICE)
- Center for Marketing and Public Policy Research
- Center for the Study of Church Management and Business Ethics
- The Daniel M. DiLella Center for Real Estate

Small class sizes allow professors to get to know you and challenge you with high expectations. They share their research and real-world corporate experience, bring prominent guest lecturers to campus and serve as your mentors.

99% Employment/Graduate School Placement Rate

Home of the Villanova School of Business (VSB), Bartley Hall houses all business departments, six Centers of Excellence and the Applied Finance Lab, along with study rooms, a print center, a Holy Grounds coffee shop and a dining hall.

“The Clay Center at VSB makes Villanova unique. Every student gets an academic advisor, a peer advisor and a major advisor, and they really care about your success. Any academic concern or question you have can be answered or addressed there.”

—Rachael Ferraro, Accounting and Marketing major

only at nova
You know you want to be an engineer someday. Why wait? At Villanova, you can be an engineer right from the start. Through an innovative first-year curriculum, you can apply technical knowledge to hands-on, interdisciplinary team projects. You’re immersed in the world of engineering, where you learn to think like an engineer and you’re exposed to various disciplines so that you can decide which major is right for you.

Villanova’s strong liberal arts foundation rounds out your educational experience. It helps you to think critically, communicate effectively and be globally aware. And the Augustinian Catholic framework of your studies empowers you to improve the human condition. It’s easy to see why Villanova engineers are leaders and change agents wherever they go.

Learn more at engineering.villanova.edu
The Multidisciplinary Design Lab

In the Multidisciplinary Design Lab (MDL), students can work on exciting industry-sponsored projects. Equipped with the latest technologies, the MDL provides a space for students to tackle real-world design problems that cut across all disciplines. These “in-house co-ops” offer another example of Villanova’s multifaceted approach to undergraduate education.

Villanova’s dedicated engineering faculty travel the world to present their research, but they’re equally committed to journeying with you during your undergraduate career. These same scholars are your teachers, mentors, advisors—and even collaborators. As an undergraduate, you have opportunities to partner with them on funded research projects in world-class facilities.

A Global Commitment to Service. Faculty and students realize the Augustinian mission by providing engineering services to communities in developing countries. They travel the globe, designing sustainable solutions to meet water, energy, infrastructure and telecommunication needs. Closer to home, they are committed to inspiring the next generation of engineers through outreach initiatives that heighten middle and high school students’ interest in science, technology, engineering and math.

“The Multidisciplinary Design Lab is that professors know more than just my name; they know me. They challenge me, but it’s always a challenge that I can meet.” —Christy Rosati, Chemical Engineering major
Nursing at Villanova

“I’m a Villanova nurse.” This is said with pride by a select group of more than 7,000 nurses worldwide who are recognized for their professional knowledge, leadership, compassion and talent. As a Villanova nursing student, you live out Augustinian values in real time—working to improve the well-being of individuals, families and communities. Through a distinctive and challenging curriculum, you start learning about nursing and practicing clinical nursing skills as a freshman—instead of waiting until your sophomore year.

With a strong foundation in the liberal arts and sciences, coupled with emphases on ethics, public health and global health, Villanova’s College of Nursing is consistently designated a Center of Excellence in Nursing Education by the National League for Nursing.

Clinical simulation is an important part of nursing education at Villanova. At this point in the pediatric asthma scenario, the nursing students are focused on regulating the oxygen levels of an infant in respiratory distress.

Learn more at nursing.villanova.edu
Driscoll Hall
Home to the College of Nursing, Driscoll Hall is a state-of-the-art facility that helps you gain the knowledge and hands-on experience you need to become a leader in the nursing profession. The 75,500-square-foot LEED Gold-certified building provides 10 clinical simulation labs for health assessment, adult health, maternal/child health, anesthesia and critical care nursing. It is also home to observation and testing labs for standardized patient simulations—incorporating technology that enhances learning, teaching and scholarship, and advances the future of nursing.

Research Centers
- Center for Nursing Research
- Center for Global and Public Health
- MacDonald Center for Obesity Prevention and Education

Clinical Experiences
At Villanova—only 12 miles from Philadelphia—you have direct access to clinical experiences at more than 70 healthcare agencies, including some of the most prestigious in the nation, such as The Children’s Hospital of Philadelphia, the Hospital of the University of Pennsylvania, Main Line Health and Thomas Jefferson University Hospital. These practica begin in your sophomore year and continue through your senior year, and prepare you for success in diverse professional settings.

Nursing Degree Programs
- Bachelor of Science Degree
- Master of Science Degree
- Doctor of Nursing Practice
- PhD in Nursing

Employment/Graduate School Placement Rate
94%

“I was thrilled to have the opportunity to do an independent study my junior year. I conducted research with a faculty member who is a nurse-midwife. I now have a stronger foundation in research, I’ve co-authored an article and I’m more confident in my own skills—skills that I look forward to using in my future education and nursing practice.” —Meghan Barowski, Nursing major
All undergraduates take the Augustine and Culture Seminar (ACS) during both semesters of their first year. This course is the cornerstone of intellectual life at Villanova and can’t be found anywhere else. Through a study of St. Augustine’s Confessions and other works, ancient and modern, ACS allows you to experience the Augustinian concept of a community of learners.

About ACS:
• Not only do you learn about St. Augustine, you explore enduring questions about life, humanity, God and truth.
• All ACS sections have 16 or fewer students and are taught by a faculty member who encourages discussion.
• About 98 percent of first-year students live with their ACS classmates in the same residence hall.
• Each semester, first-year students attend events—open to the entire undergraduate community—designed to touch upon fundamental ACS themes.

Learn more at ACS.villanova.edu.
Each year, Villanova’s highest-achieving first-year applicants are personally invited to join the Honors Program upon their acceptance to the University. Students who enroll in this selective program can fulfill many of their core and major requirements across all four colleges in Honors. An Honors degree as well as a minor are available to students in the program. If you wish to pursue Honors, you are strongly encouraged to apply to Villanova by November 1.

As an Honors student:

- Your small, discussion-based seminars are designed to provide you with an enriched academic experience and the highest level of personal attention.
- You can choose to live in our Honors dorm and participate in a themed learning community, including ones that develop your leadership skills.
- You will be challenged to think creatively and critically and to become an academic leader on campus.
- You’re empowered to take on original research projects, participate in special international experiences, and work closely with the most gifted teachers and scholars at Villanova, who serve as your mentors.

Research and fellowship experiences provide you with many benefits:

- learning the methods of your field
- publishing
- presenting at conferences
- exploring different cultures and ways of thinking

They also make you more attractive to graduate schools, employers and national fellowship committees—and help you forge professional and academic relationships that last a lifetime.

During the 2012–2013 academic year alone, Villanovans earned 24 of the most prestigious academic awards in the world, including Fulbright, Truman, Goldwater, Boren, DAAD-RISE, National Science Foundation Graduate Research Fellowship and U.S. State Department Internships.
Personal Attention

The hallmark of a Villanova education is the personal attention you receive from faculty and staff. Proven scholars—not graduate assistants—teach your classes. With an average class size of 22 and a 12-to-1 student-to-faculty ratio, faculty members are available to provide you with guidance and innovative research opportunities. In addition, University staff members offer programs, activities, and services to support your intellectual, emotional, spiritual, social, and physical well-being.

Themed First-Year Learning Communities

Joining a Learning Community helps you get the most out of your first year of college. In special themed groups, you integrate your academic and social experiences, and foster strong relationships with your hall mates and professors. You also will have opportunities to participate in special programs, events, and trips related to your community’s theme. Get more information at learningcommunities.villanova.edu

International Study

40 percent of Villanova undergraduates take part in international experiences. You can study anywhere—from Athens to Zurich—provided that the University deems your location safe and formally approves your plans. You also have opportunities to participate in service, research, and internship-based trips abroad. The Villanova Office of International Studies is here to help you choose the program that’s right for you. Learn more at internationalsStudies.villanova.edu

Water for Waslala

In 2002, Matt Nespoli ’04 and Nora Pillard Reynolds ’02 traveled to Waslala, Nicaragua, for a service trip. They discovered that the Waslalan people lacked access to clean drinking water. Matt and Nora returned home determined to find a way to end the crisis, and in 2004, Water for Waslala (WfW) was born.

Today, WfW is a thriving nonprofit that provides the funds and expertise needed to construct clean water systems in Waslala. Twice a year, Villanova professors and cross-disciplinary groups of students visit Waslala to host training workshops, inspect systems, and advance health education. So far, WfW has helped provide clean water to 3,000 Waslalans; its goal is to successfully reach all 45,000.
Orientation at Villanova is unique because it’s developed and delivered by students, for students. When you arrive on campus, you will see student volunteers (easily recognizable by their t-shirts!) helping people with directions, carrying boxes and visiting with new Villanovans.

Orientation Counselors, known as “OCs,” are students who are committed to making your transition into Villanova the very best it can be, from lending a hand during move-in to presenting useful information about campus. It’s their mission to welcome you to the Villanova community and to immediately make you feel at home on campus, just as they do.

Learn more at orientation.villanova.edu.
Student Life at Villanova provides programs, activities and services that advance your development within a community of learners committed to the spirit of St. Augustine. Learn more at studentlife.villanova.edu.

Award-Winning Dining Services

Villanova offers you 18 Dining Services locations featuring a broad array of menu items, including ethnic, vegetarian, vegan and gluten-free options. A Nutritionist and Registered Dietitian are available to students to discuss special diets and nutritional needs. The meals you eat are more than delicious and nutritious; they’re environmentally friendly with locally grown produce, fair-trade coffee and rice, cage-free eggs and sustainable seafood. For more information about Dining Services, visit diningservices.villanova.edu.

Freshman House Calls

Student Life sponsors a special evening event in September called “House Calls.” Teams of faculty members, coaches, campus ministers, staff and administrators (including college deans!) visit every freshman residence hall room. These visits are designed to get to know you better, provide you with any information you may need about available resources, answer your questions and remind you that you are now an important member of the Villanova community.

Residence Life

Villanova’s Office for Residence Life creates a welcoming residential community while maintaining a comfortable and safe environment for students residing on campus. Villanova’s housing system consists of 26 buildings—18 traditional residence halls and 8 apartment-style halls for upper-class students. For more information about residence life, visit reslife.villanova.edu.

It's easy to get involved with more than 265 student groups and organizations on campus.
Wildcats include Academic All-Americans, Big East Scholar-Athletes and Rhodes Scholars. Villanova teams have won 19 NCAA team national championships and 82 conference championships.
True to its Augustinian Catholic roots, Villanova University kicks off each fall with the St. Thomas of Villanova Celebration. This special event honors the University’s patron through a series of activities including a Catholic Social Teaching lecture, a collection for neighborhood organizations and a community dinner.

The St. Thomas of Villanova Celebration also features the Day of Service. This special day brings together thousands of Villanova students, faculty, staff, alumni, and their families and friends to complete service projects throughout Greater Philadelphia and beyond. The St. Thomas of Villanova Celebration provides Villanovans with a unique way to put their Augustinian ideals into action and to reflect upon the meaning of their service.

Learn more at STVC.villanova.edu.
St. Thomas of Villanova

St. Thomas of Villanova (1488–1555), known as the “father of the poor,” is the University’s patron. He grew up near the Spanish town of Villanova de los Infantes and was ordained to the priesthood in 1518. A man of great kindness and intellect, St. Thomas rose to become a regional superior within the Augustinian Order. He sought to empower all people to better their own lives. He created social programs and schools for the poor, protected the marginalized, and cared for the homeless by offering them food and the shelter of his own home.

There are endless ways for you to give back at Villanova. In addition to the St. Thomas of Villanova Day of Service, you can:

- Sign up for fall and spring service-break experiences
- Participate in Habitat for Humanity trips
- Volunteer with Campus Ministry
- Join a sophomore service learning community
- Get involved with the Special Olympics Pennsylvania Fall Festival

The Fall Festival, hosted and organized by Villanova students, is the largest annual student-run Special Olympics event in the world. Due to the extraordinary leadership of its students, the University was honored with the Chairman’s Choice Award from the Special Olympics Pennsylvania Hall of Fame in 2009. Learn more at specialolympics.villanova.edu.

Ignite Change. The best part of service at Villanova is the opportunity you have to make a real difference. By simply using your unique talents, you can make a positive impact on the lives of others and enrich your Villanova experience in ways that will change you—and those you serve—forever. 
The Villanova community is larger than students, faculty and staff—it also includes 113,000 Villanova alumni worldwide. Just as you will find a supportive network of people on campus, Villanova alumni also are eager to help you pursue your goals and succeed.

Before you graduate, you can connect with successful Villanova alumni through job shadowing, mentoring, and other networking and professional development opportunities. After graduation, the Villanova Alumni Association will help you sustain lifelong relationships with the University, your fellow alumni and the next generation of Villanovans. Once a Wildcat, always a Wildcat.

Learn more at alumni.villanova.edu.
A Foundation for Lifelong Success

As you advance through Villanova, the Career Center will help you set and reach your own unique professional development goals. In addition to more than 5,000 annual job postings, the Career Center offers workshops and practice interviews, along with guidance on résumé and cover letter preparation, which will help you prepare for the future.

The average starting salary among those employed from the Class of 2012 is $52,958.

Funding your Villanova Education

Villanova University costs for the 2013-2014 academic year are as follows:

- Tuition: $44,040
- Room and Board: $19,880 (room rates vary based on type of accommodation)
- Annual General Fees: $100
- One-Time Orientation Fee: $150
- Annual Health and Wellness Fee: $260
- Nonrefundable Application Fee: $80
- Nonrefundable Enrollment Deposit: $700 (applied to account)
- Commuter Scholarship: $80
- Naval ROTC/Villanova Scholarship: $11,830 (room rates vary based on type of accommodation)
- Tuition: $43,840
- Visiting Student: $150
- Nonrefundable Application Fee: $80
- Nonrefundable Enrollment Deposit: $700 (applied to account)

Academic Scholarships

When awarding financial assistance, the University prioritizes students’ demonstrated financial need. In addition to need-based financial aid, the University provides opportunities for students to demonstrate academic and/or leadership potential. Villanova offers four different scholarship programs: Presidential Scholarship Program, Villanova Scholarship, Commuter Scholarship and the Navy ROTC/Villanova Scholarship.

- Presidential Scholarship Program
- Villanova Scholarship
- Commuter Scholarship
- Naval ROTC/Villanova Scholarship
- Air Force ROTC/Villanova Scholarship
- Army ROTC/Villanova Scholarship

More than $17.1 million was awarded in Villanova Grants, with an average award amount of $2,485.

The average assistance package for students with demonstrated financial need (combining grants, scholarships, loans and student employment) was $14,382.
