1. Do you think it is safe for most classes to be held in person on campus this fall?

- Yes: 88
- No: 325
- I don’t know: 103

2. If you could choose freely between teaching online or in person this fall, which would you choose?

- Online: 303
- In person: 80
- A hybrid of online and in person: 132

3. A number of universities have announced plans to bring only segments of their student populations back to campus (such as first-year students, students who do not have safe home environments, or laboratory science students). Should Villanova follow a similar strategy, rather than bringing all students back for full residential capacity?

- Yes, bring back segments only: 293
- No, bring all students back at once: 116
- Don’t bring ANY students back: 95

4. With regard to the fall semester, which of the following are of serious concern to you? Check all that apply.

- Risk of harm to my own health: 402
- Risk of harm to students’ health: 411
- Potential harm to public health: 305
- Financial success of the university: 259
- Disruption of curriculum: 154
- Online teaching may be less effective: 179
- Liability to the university arising from the pandemic: 158
- Racial and ethnic disparities in the school setting: 277
- Other: 105
5. Which of the following testing protocols do you prefer for fall 2020?

- Test all students for COVID-19: 431
- Test only students who present symptoms: 52
- The university should not conduct any testing: 26

6. Which of the following describes you?

- Adjunct faculty member at Villanova: 130
- Full-time non-tenure track faculty: 124
- Tenure-track, untenured faculty: 57
- Tenured faculty member at Villanova: 202
