Villanova University, PA

Update to credit analysis

Summary

[Villanova University's](#) (Aa3 stable) credit quality will continue to be supported by its excellent brand and strategic positioning, significant wealth and liquidity, and manageable financial leverage. Its strong academic reputation as a selective private university with an appealing location, diverse programs and updated facilities will continue to support favorable student demand. Disciplined financial management and steady revenue growth will help sustain solid operating results and good debt affordability despite recently surfaced expense pressures. The combination of philanthropy, investment returns, and retained cash flow will support a continued upward trend in the university's already substantial total cash and investments. Further, the university's detailed capital planning framework will continue to provide for consistent capital investment to maintain its healthy age of plant while also maintaining manageable levels of debt. Credit challenges include elevated competition and weak regional demographics, modest coverage of financial reserves relative to operating expenses, and limited revenue diversity.

Exhibit 1

Significant financial reserves provide for excellent coverage of moderate debt levels

Source: Moody's Investors Service

Credit strengths

- » Excellent brand and strategic positioning as a selective private university with strong student demand, good enrollment diversity and solid philanthropy
- » Substantial total cash and investments of nearly \$1.4 billion providing for strong coverage of total adjusted debt at 6.8x
- » Strong financial management contributing to consistently favorable operating performance, ample resources for reinvestment and a relatively low age of plant at 12 years

- » Sound liquidity translates to 289 monthly days cash on hand and 451 annual days cash on hand, particularly given an absence of material liquidity risks

Credit challenges

- » Elevated competition from an elite group of competitors and weak regional demographics, adding enrollment management headwinds
- » Modest coverage of wealth relative to operations compared to peer competitors, with total cash and investments covering operating expenses by 2.5x
- » Limited revenue diversity as reflected by a high 77% reliance on net tuition and auxiliary revenue

Rating outlook

The stable outlook reflects Moody's expectations of continued strong student demand, steady operating performance, and sound liquidity. It also reflects expectations that wealth accumulation will be in line with peer competitors, driving stronger coverage of expenses.

Factors that could lead to an upgrade

- » Outsized growth in wealth and liquidity relative to peers, providing for materially stronger coverage of debt and expenses
- » Substantial improvement in revenue diversity, while generating sustained stronger operating performance and debt service coverage

Factors that could lead to a downgrade

- » Erosion in brand and strategic positioning, reflected by weakening student demand, pricing flexibility, and philanthropy
- » Sustained narrowing in operating performance or debt affordability

Profile

Villanova University was founded in 1842 by the Augustinian Order of the Roman Catholic Church and is located 14 miles west of downtown Philadelphia in the affluent suburb of Radnor Township. The university offers a broad mix of undergraduate, graduate, and professional programs. It served 9,253 full-time equivalent students in fall 2023 and generated total operating revenue of \$585 million in fiscal 2023.

Detailed credit considerations

Market profile

Strong student demand will continue to support Villanova's excellent brand and strategic positioning. Despite elevated market competition, the university continues to meet enrollment targets and demonstrate pricing power. Net tuition per student increased by 13% over the last five years to about \$38,000 in fiscal 2023. While the university is highly reliant on net student revenue, at 77% of total operating revenue, its good enrollment diversification helps mitigate this concentration. About one-third of its students are graduate or professional degree seeking. Total enrollment was flat in fall 2023 at 9,253 full-time equivalent students, but net tuition revenue is forecasted to increase by 5% in fiscal 2024. The continued execution of various market strengthening initiatives that are accretive to the brand increase the likelihood of achieving longer-term institutional enrollment objectives. The recent finalization of an agreement to acquire the campus of Cabrini University, a small neighboring faith-based liberal arts college, will provide Villanova with the opportunity to expand enrollment and academic programs over time.

Exhibit 3

Strong student demand supports steady net tuition revenue growth and pricing power

Operating performance

Disciplined financial management will contribute to the maintenance of favorable operating results. However, the university's margins narrowed in fiscal 2023 relative to historical levels as expenses grew by 10% compared to revenue growth at 5%. The combination of inflationary pressures and investments as part of the strategic plan contributed to the higher than typical expense growth. Even with this increase, the university's EBIDA margin was still solid at 12.5% in fiscal 2023, supporting debt service coverage at 3.3x. With closer alignment of revenue and expense growth, the university's financial forecast signals that the fiscal 2024 operating margins will be in line with fiscal 2023 results. Management's long-standing track record of effective budget stewardship will support longer-term operating stability.

Financial resources and liquidity

The combination of philanthropy, investment returns, and retained surpluses will continue to support steady financial reserve growth. Despite elevated capital spending, total cash and investments increased by a substantial 47% over the last five years to just under \$1.4 billion in fiscal 2023. While the university has increased exposure to alternative assets within the endowment, unrestricted liquidity continues to be favorable. Monthly and annual days cash on hand stood at a respective 289 days and 451 days in fiscal 2023. However, coverage of total cash and investments relative to operating expenses at 2.5x remains well below peer medians. Favorably, strong stewardship of the long-term endowment is reflected in consistently favorable investment performance. The five- and ten-year

endowment returns at a respective 10.3% and 9.0% exceeded policy benchmarks and many peers. Philanthropy represents another credit strength, with three-year average gift revenue topping \$88 million in fiscal 2023.

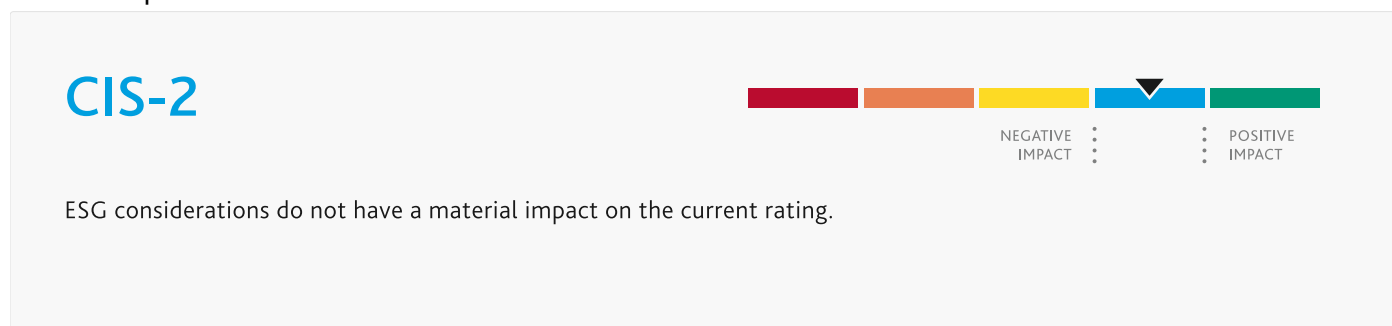

Leverage and coverage

Debt levels will remain moderate relative to scale, wealth and cash flow. Total cash and investments covered total adjusted debt by a strong 6.8x in fiscal 2023, while total adjusted debt to operating revenue was just 0.3x. Further, the university's operating performance continues to support very good debt affordability, with debt to EBIDA at 2.8x. The steady principal amortization of the university's all fixed rate bonds supported a 21% decline in total adjusted debt over the last five years to \$203 million in fiscal 2023. With no pension exposure, the university's debt consists mainly of revenue bonds. Capital spending has consistently been above depreciation expense, contributing to a healthy age of plant at 13 years. Future capital priorities have been identified by the university, with the financing sources likely to consist of a mix of cash flow, fundraising, and a potential debt issuance.

ESG considerations

Villanova University, PA's ESG credit impact score is CIS-2

Exhibit 4
ESG credit impact score

Source: Moody's Investors Service

Villanova University's **CIS-2** incorporates its significant brand strength, strong institutional leadership, and ample wealth and liquidity, which help mitigate the exposure to ESG risks.

Exhibit 5
ESG issuer profile scores

Source: Moody's Investors Service

Environmental

The **E-2** incorporates the moderate exposure to environmental risks that include tropical storms, water stress, and heat stress. The implementation of various climate resiliency strategies limit the likelihood of material operational disruption or budgetary impact. The university's ten-year sustainability plan includes actionable measures to conserve water, reduce waste, and transition energy generation as part of a goal of achieving carbon neutrality by 2050. The individual goals set forth in the plan include baseline scores that help ensure accountability and measure progress.

Social

The university's **S-2** incorporates its strong national reputation and favorable student demand. Its brand strength, good program diversity, and sound enrollment management practices will continue to mitigate the demographic risks introduced by the elevated reliance on students from the Mid-Atlantic and northeast markets. While the university is largely dependent on net student revenue, its excellent graduation rates, sound donor support and strong postgraduate earnings relative to student debt largely offset the exposure to customer relations risks. Like many sector peers, human capital risks are derived from the high faculty tenure exposure, which provides for labor rigidity. Favorably, the university's demonstrated ability to consistently exercise pricing power and grow net student revenue limits the impact of human capital challenges.

Governance

The university's **G-2** reflects its track record of favorable operating results and robust wealth accumulation. Disciplined budgeting practices will continue to provide for strong cash flow to support strategic reinvestment and financial reserve growth. The successful execution of various brand strengthening initiatives, including large scale capital investment, demonstrates good management credibility. The strong wealth gains, manageable leverage profile, and relatively low age of plant signals sound financial strategy. Like most of the sector, the large composition of the board including alumni and key donors introduces some board structure risk. Favorably, the board members have good industry diversity and experience along with a demonstrated ability of effectively fulfilling their broad oversight responsibilities.

Rating methodology and scorecard factors

The principal methodology used in this rating was [Higher Education Methodology](#) published in August 2021. The Higher Education Methodology includes a scorecard that summarizes the factors that are generally most important to higher education credit profiles. Because the scorecard is a summary and may not include every consideration in the credit analysis for a specific issuer, a scorecard indicated outcome may or may not match an assigned rating. We assess brand and strategic positioning, financial policy and strategy, and operating environment on a qualitative basis.

Exhibit 6

Moody's Investors Service, Inc., a wholly-owned credit rating agency subsidiary of Moody's Corporation ("MCO"), hereby discloses that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by Moody's Investors Service, Inc. have, prior to assignment of any credit rating, agreed to pay to Moody's Investors Service, Inc. for credit ratings opinions and services rendered by it fees ranging from \$1,000 to approximately \$5,000,000. MCO and Moody's Investors Service also maintain policies and procedures to address the independence of Moody's Investors Service credit ratings and credit rating processes. Information regarding certain affiliations that may exist between directors of MCO and rated entities, and between entities who hold credit ratings from Moody's Investors Service, Inc. and have also publicly reported to the SEC an ownership interest in MCO of more than 5%, is posted annually at www.moody.com under the heading "Investor Relations — Corporate Governance — Charter Documents - Director and Shareholder Affiliation Policy."

Additional terms for Australia only: Any publication into Australia of this document is pursuant to the Australian Financial Services License of MOODY'S affiliate, Moody's Investors Service Pty Limited ABN 61 003 399 657 AFSL 336969 and/or Moody's Analytics Australia Pty Ltd ABN 94 105 136 972 AFSL 383569 (as applicable). This document is intended to be provided only to "wholesale clients" within the meaning of section 761G of the Corporations Act 2001. By continuing to access this document from within Australia, you represent to MOODY'S that you are, or are accessing the document as a representative of, a "wholesale client" and that neither you nor the entity you represent will directly or indirectly disseminate this document or its contents to "retail clients" within the meaning of section 761G of the Corporations Act 2001. MOODY'S credit rating is an opinion as to the creditworthiness of a debt obligation of the issuer, not on the equity securities of the issuer or any form of security that is available to retail investors.

Additional terms for Japan only: Moody's Japan K.K. ("MJKK") is a wholly-owned credit rating agency subsidiary of Moody's Group Japan G.K., which is wholly-owned by Moody's Overseas Holdings Inc., a wholly-owned subsidiary of MCO. Moody's SF Japan K.K. ("MSFJ") is a wholly-owned credit rating agency subsidiary of MJKK. MSFJ is not a Nationally Recognized Statistical Rating Organization ("NRSRO"). Therefore, credit ratings assigned by MSFJ are Non-NRSRO Credit Ratings. Non-NRSRO Credit Ratings are assigned by an entity that is not a NRSRO and, consequently, the rated obligation will not qualify for certain types of treatment under U.S. laws. MJKK and MSFJ are credit rating agencies registered with the Japan Financial Services Agency and their registration numbers are FSA Commissioner (Ratings) No. 2 and 3 respectively.

MJKK or MSFJ (as applicable) hereby disclose that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by MJKK or MSFJ (as applicable) have, prior to assignment of any credit rating, agreed to pay to MJKK or MSFJ (as applicable) for credit ratings opinions and services rendered by it fees ranging from JPY100,000 to approximately JPY550,000,000.

MJKK and MSFJ also maintain policies and procedures to address Japanese regulatory requirements.
