Prescription Safety Glasses Policy

In order to protect the eyes against the possibility of injury where there is a high risk of such injury, all Facilities Maintenance, Grounds and Steam Plant trades personnel who regularly wear prescription glasses on the job are required to wear approved prescription safety glasses with side shields instead. As required by OSHA, 1910.133 all prescription safety glasses must comply with ANSIZ87.1-1989.

The University will reimburse you up to the sum of \$125.00 towards the purchase of such prescription safety glasses. Reimbursement will be made no more often than once in a two (2) year period and appropriate proof of purchase, including proof of ANSIZ87.1-1989 certification must be submitted for the reimbursement.

Robert H. Morro
Vice President for Facilities Management
