## **Discussion Questions for the Common Good**

1. How can each individual person help to bring about the common good?
2. How can we work to ensure that every person in the world has their basic needs met, including clean water, health care, food, shelter, education?
3. What is the role of the government within the global common good framework?
4. How can wealthier nations work to be in solidarity with poorer countries?
5. What is each person's responsibility to the weak and vulnerable?
