Faith and Learning Scholar Community: Dinner #! 1

Reading:

*Exiles from Eden*
Religion and the Academic Vocation in America
Chapter 3: Spirited Inquiry
Oxford University Press 1993

Come to dinner prepared to discuss the reading and share a short summary as well as questions you may have as a result of your reflection.

Leading Questions:

1. Introduce yourselves to each other and share one of your “spirited” goals for Fall ’18 and share a fun fact from summer.

2. Go around a second time and share a short summary of the article (a few sentences) and a question that it raised for you that you would like to explore in the dialogue tonight.

3. Begin to explore the questions that arise from the summaries and insights…

   Or…Explore….these questions…

4. Do you believe that spiritual virtues (charity, humility, dedication, obedience to the truth), are indispensable to academic inquiry…?

5. Share your experience as a faculty scholar and a student scholar.

   How...

   Why…
