If you have ever dreamed of bringing your sport to all levels of sport to the point where they become the norm rather than the exception, then you are the future of sport and the future of the Movement. We are not just talking about improving the lives of individual athletes and athletes-in-training. We are thinking on a truly global scale, with the potential to change the world.

We ask you: If you believe every athlete and sport is capable of being a force for change, why aren’t you embracing the principles that will make it possible? How many more people could be inspired by the stories that will make this Movement?”

If you have other inspiring stories of initiatives, sports teams, or individuals that are bringing the SSH principles to life, we would love to hear from you! Please share your stories and photos with us at info@49ersfoundation.com.
