CALL FOR APPLICATIONS:

ASHLEY ROSE PITEK NURSE SCHOLARS FELLOWSHIP

The Villanova University M. Louise Fitzpatrick College of Nursing invites applications for the Ashley Rose Pitek Nurse Scholars Fellowship. The Fellowship supports one full-time and one part-time student’s tuition and fees for study in the post-master’s track leading to the Doctor of Nursing Practice degree for eligible Advanced Practice Nurses and Nurse Executives whose careers are committed to the care of children with spina bifida and their families.

The students’ DNP project must focus on critical aspects of spina bifida care that can be applied in practice and contribute to the improved care and quality of life of these children and their families.

The highly qualified Fellows must be accepted as a full-time DNP or a part-time DNP student. The program is delivered via synchronous distance learning with select on-campus sessions over a five-semester (full-time) and 8 semester period (part-time). The 2019-2020 program begins in June 2020.

Funding for the Fellowship offers:
- all tuition and fees
- scholarly project development
- cost of attending a conference related to spina bifida.

Two highly qualified Fellows (one full-time, one part-time) will be selected to begin the prestigious Fellowship within the DNP program in summer 2020.

To be considered, candidates must have a completed DNP application and submit a Fellowship letter of interest by February 20, 2020.

For questions, contact Doctoral Program Coordinator, Rachel N'Diaye rachel.ndiaye@villanova.edu or 610-519-4914.
