

Meet Taylor from Florida

VILLANOVA
UNIVERSITY
College of Nursing

"From the moment I stepped on the campus in my junior year of high school I fell in love. The beautiful fall leaves scattered along the antique look of the university captured my heart and from that day forward I **knew I would always be a Wildcat.**"

BE A

Villanova Nurse

"As classes began my freshman year I expected a curriculum that would be all pre-requisites, but unlike many schools back home the **nursing classes started right away.**"

"I am beyond grateful for the **opportunities I have been given.**"

"I began to make close **friendships** with fellow nursing students and built great **connections** with my professors that I will have for a **lifetime.**"

"I have found a **home away from home** at Villanova University."

"I have **connected with teachers beyond a level that most students at a large university would have,** and I can definitely say that these connections will continue past graduation."

"Most importantly, I have been pushed and challenged by the Nursing Program at Villanova and I can one hundred percent say that I feel prepared for my future as a nurse and know that one day my goal of continuing my education to be a nurse practitioner will come true."
