

## West Virginia Lead Resources

### **West Virginia Childhood Lead Poisoning Prevention Project (WV Department of Health):**

Provides information to help target populations that need the most assistance; provides resources to protect homes and families; offers guidance for healthcare providers; shares information about community education and events; and lists state regulations related to lead.

Contact: - wvclppp@wv.gov; Phone 304-558-5388 | Toll-Free 1-800-642-8522

### **Local West Virginia Health departments:** [WV county health departments](#)

County health departments with lead analyzers: [Fayette](#), [Harrison](#), [Hampshire](#), [Jefferson](#), [Kanawha](#), [Lewis](#), [Marshall](#), [Mineral](#)

**Environmental Protection Agency (EPA):** Provides funding (when available), resources and testing kits, and technical expertise, and assists with convening, using EPA ORD mapping on exposure risk, and GIS support. [EPA Lead Program](#); [Contact information](#).

**Mid-Atlantic Center for Children's Health and the Environment (MACCHE):** Provides free consultation services, referrals, outreach, and education related to lead and other environmental exposures to clinicians and health care professionals; public health departments; public health and medical trainees; families; and communities.

Contact: [macche@villanova.edu](mailto:macche@villanova.edu); 833-362-2243 (toll free)

**West Virginia's Medicaid Managed Care Organizations:** A Managed Care Organization (MCO) is a health insurance company that partners with a state to help deliver health care services to people enrolled in Medicaid and the Children's Health Insurance Program (CHIP). West Virginia's MCOs help members get the care they need by: connecting members to doctors, clinics, specialists, and hospitals; offering 24-hour Nurse Line support; providing care management to help coordinate services for members with ongoing or complex needs; and other services.

### *Member Incentives and Rewards related to Lead Screening:*
