DEVELOPMENT

A full-page photograph of three young professionals walking along a gravel path in front of the United States Capitol building. On the left, a Black man in a light gray suit and striped tie walks towards the right. In the center, a woman with long brown hair in a black blazer and skirt walks towards the right. On the right, a white man in a dark blue suit and red tie walks towards the right. They are all smiling and looking in the same direction. HOW VILLANOVA COLLECTS THESE RESULTS

The Career Center conducts several surveys of Villanova's spring undergraduate graduating class, starting the April before graduation and ending six months after Commencement, to assess post-graduation plans and employment information. Information is also collected via public record (LinkedIn) and official employment and institutional records. A small percentage of graduates reported prior to graduation that they were seeking opportunities, but did not provide an update during the survey collection period. These students are not included in this outcomes data. The percentage of the graduating class with known career outcomes is the knowledge rate. The knowledge rate for the **Class of 2023 is 83.5 percent.**
