Villanova University Internal Student Complaint Reporting Process

In connection with United States Department of Education regulations (34 CFR 602.16(a)(1)(ix)), Villanova University is required to maintain a record of student complaints received by the institution. These records are made available to the University’s accrediting body, the Middle States Commission on Higher Education, and may be reviewed as part of maintaining the institution’s accreditation.

Student Complaint Process

Villanova University strives to provide an environment in which student concerns are heard, discussed and resolved in a manner that fosters respect and growth for all individuals involved. The University offers students multiple avenues, both informal and formal, for raising concerns or complaints, depending upon the nature of the concern or complaint.

Further, the University Community of faculty, staff, and students has available to them an ethics and compliance hotline (EthicsPoint) which provides a process to raise a question or concern on a confidential or anonymous basis. EthicsPoint, a third-party provider, provides both an internet and telephone mechanism for reporting. EthicsPoint then makes these reports available to University officials who are charged with reviewing and following up on the report.
