

When logging into a Duo secured system, you will be prompted with three types of authentication:

Each authentication method is as follows:

- Duo Push** Pushes a login request to your phone or tablet (if you have Duo Mobile installed and activated on your iOS, Android, or Windows Phone device). Just review the request and tap **Approve** to log in.
- Call Me** Authenticate via phone callback—The phone number will be 610-519-6000 and you will be required and push any key to be logged into Duo
- Enter a Passcode** Log in using a passcode, either generated with Duo Mobile, sent via SMS.
Click **Send codes** to get a new batch of passcodes texted to your phone.
