

# iTunesU

Enabling iTunes in Blackboard creates a restricted iTunes area for your course – the area is not accessible to the public.

To create the iTunesU area for your course:

1. Log into Blackboard and enter your course
2. Go to the **Control Panel**
3. Click on iTunes U in the **Course Tools** area
4. Click the **Enable** button beside "Enable iTunes U" in the iTunes U Control Panel
5. Click **OK**  
Once completed, the iTunes U Control Panel will appear
6. Click on the **iTunes U** button  
This will invoke the iTunes application directed to your course area where you can upload your files

To create the iTunesU link for your students:

7. Click the **Edit Mode: ON** link within a course content area
8. Click **Add Interactive Tool** to expand the menu options
9. Click **Add iTunes U Link**
10. Enter link title and instructions
11. Enter link properties
12. Click **Submit**
