

For first time users or those who already have a Dropbox account, you can also link your accounts on your computer so that you can pick and choose which account you would like to save to on your computer.

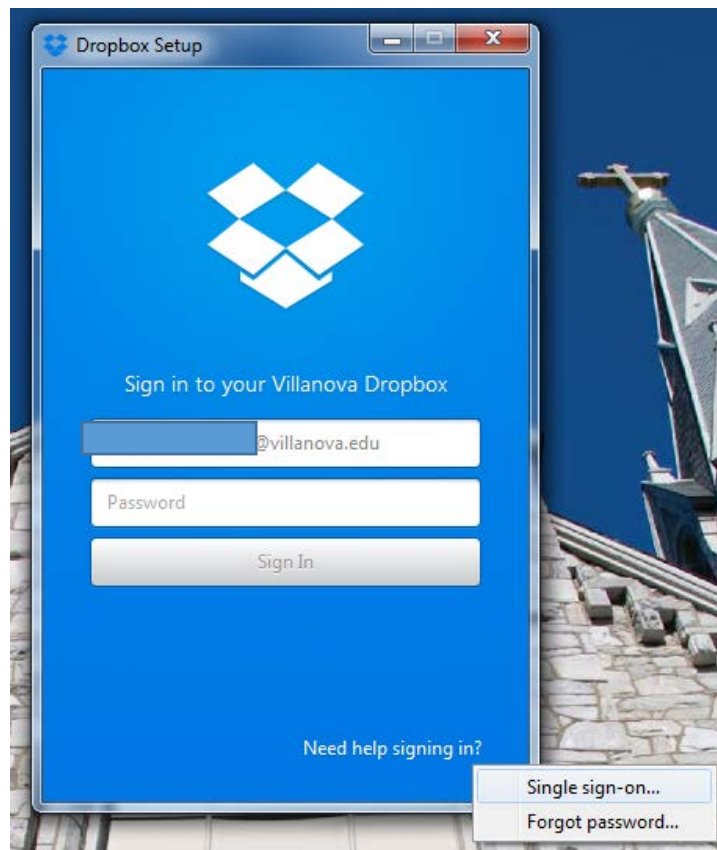

Click on the Dropbox icon on the bottom of the taskbar.

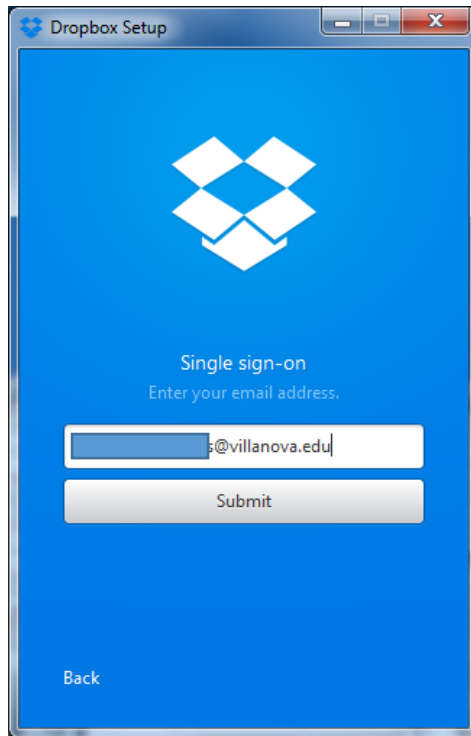

Once the options come into view, you will be prompted to link your Villanova Dropbox. Click Link.

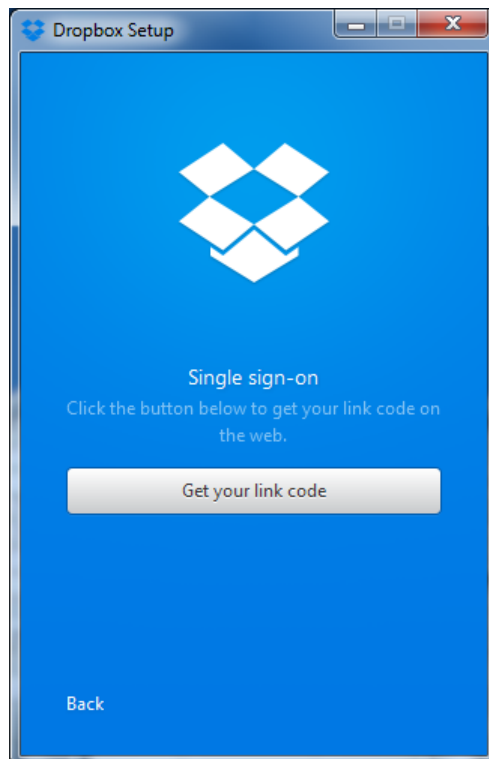

You will be prompted to sign into your Dropbox. Instead of signing in, click 'Need help signing in?' at the bottom and chose Single sign-on.

Enter your email, then click Submit.

You will then be prompted to get a link code. Please click it to retrieve your code.

To get the Link Code, you will be redirected to dropbox.com. If it does not appear, you will be prompted to login.
