[Forgot your password?](#)

If you already have a personal Dropbox with your Villanova email, the following prompt will appear. You can choose to merge your existing files or you can keep your current account personal and simply change the email address of your personal account. It will then prompt you for a new email and password.

Welcome to the Villanova team on Dropbox

Your account (**[redacted]@villanova.edu**) will join the Villanova team.
Choose where you want your existing files to go.

 **Join Villanova with my current account**
This account is for work. Villanova will have access to and admin control over your work Dropbox.

 **Keep my current account *personal***
You'll need to change the email address on your personal account, and you'll get a new work account to use with Villanova.

Enter a different email address to create a new personal account. The email **[redacted]@villanova.edu** will be used for your Villanova Dropbox account.

I agree to the [Dropbox terms](#)

Confirm

Dropbox will send an email to confirm your new email address.

One last step...

We sent an email to [redacted]@outlook.com. You **must** click 'confirm' in that email to finish setup.

Can't find the verification email? [Send another email.](#)

Once you verify your email, you will be able to get started with your new account.

A screenshot of the Dropbox web interface. The top left shows the Dropbox logo and navigation links for 'Recents', 'Personal', and 'Villanova'. The main area shows a folder named 'Villanova' containing a file 'Get Started with Dropbox.pdf' modified '6 mins ago'. The interface includes a search bar and various utility icons.
