

Making Your Course Accessible in the Learning Management System (LMS)

An easy-to-complete, online, self-paced course designed for Villanova faculty

This two-module, 25-30-minute course demonstrates ways to support learners with disabilities, outlines the legal context of accessibility and highlights Universal Design principles.

Faculty who complete the course will receive a Certificate of Completion acknowledging their continued professional development in their portfolio.

Online Self-Paced Course: Making Your Course Accessible in LMS

Learning Goals include:

- Articulate the importance of accessibility
- Integrate Universal Design in your course design
- Apply evidence-based practices to accessible course design in the LMS
- Refer to campus resources to address accessibility issues

The course was co-developed by VITAL and Learning Support Services with support from Falvey Memorial Library, UNIT-Center for Instructional Technologies and Multimedia Technologies.
