Faculty,

Happy March Madness! Thank you all for your continued hard work and dedication to our students both in and out of the classrooms and laboratories. It is a stressful time for all, so please take care of yourself and continue to look out for our students.

For those of you teaching in **Summer 2022** and/or **Fall 2022** please submit your book adoptions by **Tuesday April 5th**. If you have a question or need assistance, contact the University Shop at villanovaushop@villanova.edu. Please submit your book and other material adoptions through the Follett Discover tool located in Blackboard under the resources tab. Do not reply to this email.

As always pick the best materials for your courses. Please also consider costs to students when making your selections. We have many resources available to help you in your selection process (see the Affordable Materials Project webpage). You can also reach out to your Subject Librarian or our open educational resource (OER) coordinator, Linda.hauck@villanova.edu, to help you find excellent materials for your courses.

Keep up the great work and I look forward to the excitement the end of an academic year brings to campus.

Randy Weinstein  
Vice Provost for Teaching and Learning  
Professor of Chemical and Biological Engineering
