

Your thesis or dissertation should include an Approval Page, which follows the title page. Please do not use this sample as the official approval page in your thesis or dissertation. This sample is to be used only as the model for the page you will prepare for your thesis or dissertation, which will be signed by your thesis advisor, committee, and the Dean of Graduate Studies.

When you submit your title page and the original, signed approval page to the Office of Graduate Studies, please provide several copies of the Approval Page for the Dean's signature. The signed original and the copies will then be submitted to the department so that you may include the Approval Page in the bound copy or copies of your thesis or dissertation. ***The original Approval Page is for the bound copy only.***

***Please do not include an approval page in your on-line submission of your thesis or dissertation to ProQuest. You will be able to enter the names of your thesis or dissertation advisor and committee members in the Details section of your on-line submission.***
