"Welcome to Advanced Insurance Law: Coverage Disputes.

I am looking forward to our first class on Monday, January 10.

In preparation for our first class, please see the Unit One, Session One, posting on Blackboard for PDF copies of the course materials for your first class reading assignment.

As a practical legal writing and law practice simulation course, Advance Insurance Law is grounded in a hypothetical insurance coverage dispute that will provide the context for us to address significant current insurance law coverage dispute issues encountered by insurance coverage attorneys. We will assume the roles of policyholder counsel and insurance company counsel as we analyze a variety of insurance coverage issues and draft and discuss documents typically drafted by insurance coverage practitioners (e.g., coverage analysis memoranda and coverage determination and reservation of rights letters). As insurance coverage counsel, we will discuss your coverage analyses and conclusions during our “office meetings” throughout the semester.

Advanced Insurance Law will provide you with the opportunity to develop skill sets and insights essential to the practice of insurance coverage law, while gaining practical experience and insights into practicing law in the law firm or in-house settings. These experiences, skill sets, and insights are not limited to the practice of insurance coverage law and have application to the practice of law in other substantive law and practice contexts.

I look forward to seeing you all on Monday, January 10, and working with you this semester.

B. Fashion Lawyers Must Wear Many Hats, Chapter 1, read pp. 5-8

Assignment: You are in-house counsel for a large luxury fashion Company that has asked you to update the Company’s Supplier Code of Conduct. Specifically, the Company has asked you to add a section regarding labor standards and employment requirements that the Company will require of all of the suppliers it contracts with (the Company will require that every outside vendor sign the Supplier Code of Conduct as part of its overall contract for services with the Company). Please search online and review Supplier Codes of Conduct for fashion companies and information they include with respect to suppliers' workers' rights. Think about the issues addressed in the textbook and documentary. Please then draft a one page addendum focused on workers’ rights to be incorporated into your Company’s Supplier Code of Conduct (assume the Company’s Supplier Code of Conduct already contains sections pertaining to environmental regulations and business integrity requirements). Feel free to use bullet points or other alternate formats to present the information. (1 Page Limit).
